

CORN-HOG INTEREST AT SCIO IS GREAT

80 Farmers at First Meeting; Organization Slated for Monday

SCIO, Jan. 31. — Approximately 80 farmers attended the corn-hog meeting in Scio Monday afternoon, when F. C. Mullein, Linn county agent, and H. A. Lindgren of the state college, explained the details of the program.

Many of the farmers here Monday had participated in the meeting at Albany a week before, in the meantime informing themselves on the subject from literature provided at the Albany conference. Unlike the wheat control movement in its infancy, farmers generally were "ready to go," and the Scio meeting had little delay in getting under effective headway.

Mullen explained that Scio is included in the Rock Creek district, emphasizing the fact that all persons within the A. L. Geddes assessing territory should remember that Scio is their place of meeting in the corn-hog campaign.

It was further stated that the Scio district embraces the area assessed by Claire Powell and that the line is at or near Blain station, one mile south of Crabtree. The district all lies east of the Santiam river, Mullen added.

A second meeting was announced for Scio at 1:30 p. m., Monday, February 5, at which time it is expected that farmers cooperating in the movement will sign contracts, select three committees to function and to take other steps necessary in completing the campaign here.

It was reported that there may yet be an opportunity for farmers who did not affiliate with the wheat movement, and who have since signified their desire to do so, to become beneficiaries of the control plans.
