Tone Improves at Portland; Egg Storage to Start Soon, Expected

Net prices for butter were raised half a cent on all grades by the produce exchange at Portland late yesterday, according to Associated Press advices. Late quotations were: Extras 23c, standards and prime firsts 22 1/2c and firsts 21 1/2 c.

PORTLAND, Feb. 6 .- (AP)-Storage butter interests continued to be pleased regarding the status of the trade here with a resulting big decrease in the ice house stock.

Butter market was showing a far more favorable tone at Portland than at other leading points but this appeared due more to the shortened supply of centralizers as well as the somewhat increased

consumptive call.

Storage operations in eggs have tarted at Oakland, Cal., and were expected to get under way here within the next few days. No change in the day's price was suggested.

Live chicken receipts here were considered so low that few producers were willing to market. The killing trade was again turning to the low priced markets of southwestern Washington.

Market for turkeys continued favorable for dressed offerings. There was a good 19c market here for tops to retailers with large toms preferred for freezing. Hens were selling on arrival.

Sales of country killed hogs ave been advanced to an extreme of 9c locally as a result of the higher live cost. However, some of the latter was down for the day. At the recent advance in price iere, country killed calves were irm and scarce with less than half of apparent needs. Lambs and old mutton were scarce and

# Cotton, Stocks Boost Grain

# Salem Markets RALLIES V **NEW HIGH FOR YEAR**

NEW YORK, Feb. 6 .- (AP)-Low priced shares, particularly in the utility and merchandising divisions, got a good part of the attention from bullishly inclined stock traders today. Otherwise, the list tended to rest a bit from its recent labors, with realizing virtually offsetting new buying. The 90 stock average closed unchanged though utilities pushed to a new

1934 high. Turnover was boosted to 4,359,-530 shares, largely because of a last hour demand for light and power company issues which piled up a heavy volume. With rails, steels, motors and some other late favorites quieter and inclined to ease, the market appeared to have switched to utility holding company shares on the theory that they had been lagging. Big blocks were numerous, the record being established in a single, 90,000share transfer of Commonwealth & Southern, 3, up 1/4. This issue

closed at 3%, up %. Many utilities gained 1 to neary 3 points net. Wire company shares found favor, perhaps because buyers figured big markets meant increased use of communication facilities. American Telephone reached the best price in several months. Miscellaneous favorites of the rather specialized session included Austin Nichols, U. S. Pipe and Loew's. Oils dragged when Socony-Vacuum's directors declared a 15 per cent dividend; three months ago payments were resumed with a 25 per cent distribution and the reduction from that figure probably caused some disappointment.

CHICAGO, Feb. 6 .- (AP)-A brisk rally during the last few minutes of trading today more than wiped out earlier losses of about a cent

a bushel in wheat. Active buying which accompanied the late upturn of wheat values came largely from eastern sources, and was attributed to strength shown both in the stock market and in cotton, causing speculative sellers of wheat to make a hurried reversal of their market position. Except in the final spurt, demand for wheat future deliveries lacked volume, about the only sustaining influence being "spread" transactions that consisted of matching purchases here against equal sales at

Winnipeg. Wheat closed firm at practically the day's top level, 1/4 off to 4 up compared with yesterday's finish, corn unchanged to 1/4 .lower, oats 1/4-1/2 down, and provisions showing 5 to 12 cents ad-

Today's closing quotations: Wheat - May 92 %-93; July 91%-%; September 92%-%. Corn - May 52 % - 53; July 4%-%; September 56%. Oats - May 38; July 3714; September 36%.

# Volume of Wool Deals Moderate, Prices Unvaried

BOSTON, Feb. 6. - (AP) - (U. S. Dept. Agr.) - A very moderate volume of business was transacted in the wool market. Demand on greasy domestic wool was confined largely to combing 64s and finer western grown wool, especially the short combing type. Prices showed no change from recent sales. Average French combing 64s and finer territory wool in original bags sold at 82-84 cents scoured basis. Short French combing and clothing lines brought 79-81 cents scoured basis for original bag lots.
