

MASS SHOW IS MARKET IDEAL

Manufacturers of Foodstuffs Take Part This Weekend in Special Event

(Continued from Page 10)

When the Valley Motor company purchased the entire block from the Southern Pacific, Mr. Busick and Mr. Stiff arranged to lease the Market building...

The idea of self-service, low prices and mass display immediately impressed the buying public which also liked the convenient parking space...

Now, at the end of six years of such service, and the opening of a new period of development, Busick's market grocery is continuing its original idea and expanding it...

New Equipment Installed The recent refinishing of the market includes rearrangement of all departments. The meat department has been ranged along the east side of the 10,000 square feet of space...

refrigerating equipment, built especially for the meat department, is utilized while special refrigeration is provided for the vegetable market maintained by the store.

In addition to its vegetable and meat departments, the Busick grocery has its own bakery, making bread and cookies; furnishing all of its baked goods, in fact, except its Hostess cakes.

The "Food Carnival" to be conducted this Friday and Saturday is not alone the anniversary of the Busick Market; it is the anniversary for more than a score of manufacturers who have been steadily supplying the Busick enterprise since it opened its new institution in 1928.

Merchandising of groceries has run in the Busick family for three generations. Mr. Busick's grandfather was a wholesale grocer in Tennessee at the time of the Civil war. J. L. Busick, father of the five present generation sons, was the founder and silent partner of the Busick grocery which first began in Salem nearly 21 years ago.

Looking to the future, Mr. Busick is optimistic. January, 1934, business was markedly better than the business of the same month the year before. "The business is gone from business," he said. "The public was definitely easier when the CWA work began. I am hopeful for a good year ahead."

ANOTHER SAWMILL TO START AT SCIO

Julius Hrudka and Ed Egr Lease Short Plant; to Operate Soon

SCIO, Feb. 15. — Julius Hrudka and Ed Egr of Scio have leased the Short sawmill plant at Jordan and announce they will open operations near Jordan about March 1. Legal formalities in connection with the lease were being arranged Wednesday with a view of taking possession of the plant as soon as practicable.

The capacity of the plant is said to be 20,000 feet per day. Much of the machinery is virtually new, as the plant has not been operated to any extent owing to the fact that the economic depression struck about the time the Short company planned to set up the plant.

The mill will be operated under the firm name and style of Jordan Lumber company, with Mr. Hrudka as manager. Both Hrudka and Egr have had experience in the sawmilling and logging, the former having operated mills in the Scio region for the last several years.

Although the mill-site is some distance from a railroad, they will truck their products to West Scio for shipment. Railroad ties and dimension lumber for building purposes will be the principal material manufactured. However, they propose also to furnish planed lumber in the event orders for this character of material are received. They expect to make arrangements with the Lglay planing mill at West Scio for this finished product. It was announced. The operations will provide employment for 12 to 20 men.
