LIBERTY, March 10. — The Liberty Community club met Friday night with the new president, Mrs. E. C. Free, presiding. A pre-school clinic was announced to be held on March 21 at the hall. A tuberculosis skin test for school children will also be held soon.

All who are interested in public speaking were asked to come to the school house Monday at 7 p. m. A teacher for a CWS class has been secured. This class will take the place of the mining class held here the past month.

The latter challenged any woman to debate the question, "Resolved all women should be excluded from all institutions, buildings, etc., except the home."

The play cast was introduced, each giving a characteristic bit of his part in the play which will be given Friday, March 15.

PRILL HAS RECORD OF BIRD ARRIVALS

SCIO, March 10. — Records kept by Dr. A. G. Prill, Scio naturalist and sportsman, disclose interesting facts relative to bird life in this section of Linn county. Dr. Prill's study of this subject also includes a wide field in other parts of Oregon, particularly as regards waders and plovers in the lake regions. Fish and big game also have come within the scope of his observations. Dr. Prill is a recognized authority in these matters and he has at his home in this city one of the largest collections of eggs, nests and mounted birds in the state or the west.

It was through the efforts of Dr. Prill that an Audubon club was organized in the schools of Scio last year, and the organization functioned on a more or less extensive scale for several months, although less attention has been given to the movement this year. It is stated:

Bird arrivals at Scio in recent years have been recorded by Dr. Prill, who this week presented the following schedule taken from his records of long standing:

Violet green and tree swallows: 1929, March 5; 1932, March 29; 1933, March 5; 1934, March 8.

Hummingbirds (rufous): 1927, March 29, 1928, March 16; 1930, March 31; 1932, March 18; 1933, March 27.

Audubon's warbler: 1928, March 16.

American dipper: 1925, nest with eggs, at Jordan, April 5.

Bluebirds: 1934, present the entire season.

Meadowlarks, robins and other birds frequently remain in this part of the Willamette valley from one year's end to another, according to those who have studied the habits of these species. Migratory birds in this part of the coast region include one of the most extensive lists found any place in the country, it is stated.

P. T. A. Sponsors Play at Molalla Bird Woman Talks

MOLALLA, March 10. — A three-act comedy, "Small Town Romeo," will be presented April 6 at the high school under the sponsorship of the Parent Teachers' association to raise money to finance hot lunches for school children. Forrest Dunton, principal, is the coach.

"Oregon Birds" was the subject of a talk given Thursday afternoon by Mrs. William Hammond of Gladstone, at a meeting of the civic club at the Frank

Dicken home. Mrs. Hammond brought with her 50 stuffed birds to illustrate her talk.

Business taken up at the meeting was relative to the tennis court benefit dance to be given March 17 at the band hall. Mrs. Chester Granquist, chairman of the dance committee, reported that she had sold enough tickets to more than take care of all the expenses of the dance.
