Interesting Facts . . .

Standard time was adopted 50 years ago today.

We found a good supply of light globes at the Salem General hospital when we were there last week. One of the nurses told us that she was going to put carbolic acid on the temperature thermometer before she gave it to us but we guess she was scared to. We had them bluffed for we were treated swell.

The new superintendent is doing some general cleaning up and everyone seems to be all pepped up over the new deal.

The velocity of light is given as 186,359 miles per second.

We have been going up to the special meetings at the First Methodist church the past week and have noted a steady increase in attendance and interest.

Unlike the old time revivals there is no banners across the streets, no outside evangelist, no individual workers to go up and down the aisles trying to get people to go forward, in fact nothing sensational.

Music and singing followed by a gospel sermon which should surely inspire anyone and give them a desire to turn toward right. An invitation to-be sure but nothing to embarrass the most sensitive person.

We see that the slot machines are still running wide open around town.

Extra editions are a real service to readers but not profitable to publishers as a rule. Three news men on duty to rush the story in. Two operators to set the type, one man to make up the page, a steno-typist to make the mat and cast for the press, a pressman and his helper to operate the press, a man to call the sellers and give them the papers, and one half going to the sellers leaves very little to cover overhead, lights, power, cost of paper and ink.

Someone said that Mayor-elect Kuhn was not big enough for the job. We'll tell 'em he's six feet one inch.

Irl McSherry told us that he had never seen his name in our column. We have never figured out anything to say about him only now we remember that he used to be a high flutin editor of The Statesman. We flew with him to Eugene once with Lee Eyerly to an editorial meeting. That's high flutin isn't it?

The news item in last night's Journal one might think that they had someone other than Baer & Cunningham they would like to see have as engineers for the city water project.

Feel all dressed up today. Dug up our last year's spring suit and took it over to Tailor Mosher with instructions to take out the ten pounds we have lost since last spring. Now we have a tailor made suit.

Some nice looking lady came into the office late last evening packing a 12 inch leather boot that she had found. The owner can get it by paying for the little classified ad that appears in this morning's paper.

LOGAN CROP HOLDS GOOD EXPECTATIONS

MISSION BOTTOM, March 12.—A. L. Lamb has started building preparations on his fruit and nut farm in Mission Bottom. Twenty-five acres of alfalfa have been seeded on this farm the past week. The Doolittle entertainers from Salem will put on a program Friday night, March 16, at the schoolhouse when the regular meeting of Parent Teachers will be held. A pie social will follow and all are invited, also the auction sale of the school organ, proceeds to be used for benefit of the school.

INCREASE IN MAKE OF BUTTER COMES

Egg Prices in Muddle; Veal Trifle Lower; Broiler Shortage Acute

PORTLAND, Ore., March 12.—(AP)—Market for butter showed a slight increase in make, the first hopeful sign of increased production for some time. The chief gains were reported from eastern Oregon where production has lagged.

Egg market prices were all in a muddle here with actual sales of cartons of extras down to 15c or even less to favored retailers. Buying prices continued unchanged which suggested that grades are not being followed.

There was an acute shortage or even famine of young broilers in the chicken trade. All chickens were showing a good demand.

Trifle lower veal price was suggested here with somewhat increased offerings during the last few days. Hogs appeared steady and there remained a favorable tone for both mutton and lambs.

Rather liberal carload sales of onions continued at Oregon primary points with the selling price held 80c to 91 cent net to growers. Local market remained sluggish with prices weak.

Quiet trading tone was suggested all through the potato market here and at Pacific northwest sources. Prices were weak with rollovers being almost generally sold below 40c. Spinach was weaker and trifle lower with oversupply of outside stuff.

Asparagus prices were holding steady with cool weather in leading California producing sections. Lettuce prices were much mixed owing to great spread between quality of dry and feed offerings.

STOCKS OF WHEAT DECREASE, FOUND

CHICAGO, March 12.—(AP)—Jumps of more than 2 cents a bushel in wheat prices late today accompanied an unexpectedly big decrease of the United States wheat visible supply.

The decrease of wheat stocks amounted to 3,548,000 bushels the past week, and showed a reduction to 97,029,000 bushels, the smallest total since July, 1929. This was in sharp contrast with the total a year ago, 124,431,000 bushels.

A sudden spurge of buying of wheat futures was witnessed as dealings drew to an end, with the market closing firm at nearly the day's finish, 3 1/2-1/2 above Saturday's finish, corn 3/4-1/2 up, oats 1/2-1/2 advanced, and provided unchanged to 5 cents decline.

Wheat—May, 81 1/2-59; July, 83 1/2-59; Sept., 83 1/2-59. Corn—May, 51 1/2-4; July, 53 1/2-4; Sept., 55 1/2-4. Oats—May, 34 1/2-4; July, 35 1/2-4; Sept., 35 1/2-4.

Financial Markets Improve

Salem Markets

NEW YORK, March 12.—(AP)—Improvement was the rule in financial markets today. Stocks flurried upward in the afternoon and most commodities, as well as bonds, bettered last week's closing levels.

Stock exchange trading was dull, turnover amounting to only 1,238,480 shares. Such buying as appeared may have been encouraged by the revisions which are being made in market regulation plans and also by the latest congressional proposals with respect to silver on the theory that they carried inflationary implications.

Strength in commodities, notably wheat, silver futures, rubber and cotton, gave support to the course of stocks.

Montgomery Ward was active and strong, American Telephone's boost was attributed partly to repurchases by shorts who had decided to cover rather than pay the 2 1/2 dividend which soon comes off the stock's market price. Case and Harvester each gained more than a point on the strength of wheat's upturn in response to estimates of a smaller visible supply.

General Motors rose about a point; President Sloan is informing stockholders that in his opinion the first quarter dividend will have been fully earned and that results would have been better had there not been production delays. Advances for rails generally ranged from fractions to around a point.
