### Prices Firm for Western Wool at Boston, Reported

BOSTON, April 21-(AP)-(U. S. Dept. Agr.)-Trade in the Boston wool market remained unusually dull with most houses during the past week. Occasionally a better feeling was sensed in the latter days of the week, but it did not develop into an active demand. Quotations were weak on medium fleeces and fairly firm on western grown wools. Indicative of the firmness of prices on western grown wools was the sale late this week of a sizeable quantity of choice 12-months Texas wool at 84-85 cents scoured basis.

Herewith is the solution to yesterday's Puzzle.

CARRIES WHEAT UP CHICAGO, April 21-(AP)-Enlarged speculative demands, al-

wheat a maximum of nearly 2 cents a bushel. For the most part, buying was associated with possibilities that monetary developments at Washington would prove to be of a stimulating character as to grain values. The day's trade in grain, however, was at an end before results of an apparently inconclusive parley between President Roosevelt and senate advocates of

though chiefly for small lots, lift-

ed prices of all grains today,

mandatory legislation regarding silver could be associated. Wheat closed nervous at fractional setbacks from the day's top but 1 to 11/2 cents above yesterday's finish, corn 3-4 to 1 3-8 up. oats 1-4 to 1-2 advanced, and provisions varying from 5 cents de-

cline to 5 cents gain. Today's closing quotations: Wheat: May 77 to 77 1-8; July 76 7-8 to 77; Sept. 78 1-8 to 1-4. Corn: May 45 1-2 to 5-8; July 47 3-4 to 7-8; Sept. 49 3-4. Oats: May 28 1-8; July 28 5-8 to 3-4; Sept. 29 3-8.

NEW YORK, April 21.-(AP)-Security markets were somewhat hesitant today while grains rallied and gold currency exchange rates worked against the dollar.

Stock trading was the most active for a Saturday in several weeks, totaling 902,720 shares, but profit taking made for some irregularity. Dollar weakness appeared to have been less of a market factor; perhaps it was offset by the uncertainty, during business hours, as to what success the silver bloc would have with its demands for mandatory legislation. Silver prices, both spot and futures, reacted and some of the white metal shares eased.

Dollar weakness was most read-

ily explained by rumors circulat-

ing in Europe to the effect that

further dollar devaluation loom-

ed, but there was no surface de-

velopments to support such gos-

sip. French francs, it was pointed out, were probably reflecting the stronger gold position of the bank of France as well as the newly balanced budget. The franc closed at 6.68 % cents, up 1 % points, after touching 6.69%, which compared with the gold export level of 6.69 cents. As a matter of fact the rate remained above that mark for only a short time.
