## Biggest Tree Cut Down in Clatsop; 54,900 Board Feet

After surviving inroads of almost a century of logging operations in Clatsop county a giant spruce tree scaling 54,900 feet recently was brought down by Jack McCawley and Bert Anderson, veterans loggers of that district. The tree was 240 feet tall and measured 11 feet 9 inches well off the ground.

Lynn Cronmiller, state forester, said the tree was one of the largest ever cut in Clatsop county. An idea of the amount of lumber in this tree may be judged from the fact that if it were in small logs, the smaller mills would require almost three days to saw it, and it would be most of a day's work for a fast band-saw mill.

## RACE HORSE THEFT HEARING CONTINUED

Preliminary hearing for Ed Crosson for alleged larceny of three race horses started in justice court yesterday afternoon, but was continued until September 25 when a Mr. Lindsay, stable manager of the horses under question while they were at the state fair here, will be called to testify. On Lindsay's testimony is expected to hinge Crosson's instrumentality, if any, in moving the horses from the race track here while they were under attachment.

Six or eight race track men gave testimony yesterday, which failed to throw any light on who might be the real owner of the horses. At Greenham the horse Edwin Did, one of the three involved, is passing on the race track there as owned by a woman, but is registered in a man's name, and in neither instance is the name Crosson.

Crosson was arrested for the alleged larceny after he allegedly took the three horses involved away from the race track here after Sheriff Burk had turned them over to H. C. Finley as keeper under attachment proceedings.

## Republicans to Gather at Park; Tri-County Meet

Republicans from all parts of western Oregon, as well as voters of other parties interested in the stand of Republican candidates will gather at Benton-Lane auto park on the Pacific highway, Sunday, September 23, for the Benton-Lane Linn tri-county republican picnic.

James Mott, republican congressman from this district, who is up for reelection at the November polls will be a third principal speaker. Campaign activities will be discussed by prominent republican leaders throughout the district.

## BIRTHS ARE DOUBLE NUMBER OF DEATHS

More than twice as many births as deaths were recorded in Marion county during August, Dr. Vernon A. Douglas, county health officer, announced yesterday. The month varied widely in this respect from the trend during the first eight months of 1934 and 1933, respectively. The number of births had been running more nearly equal to that of deaths.

Births last month numbered 99, of which 42 were male and 48 female. There were 36 deaths, 21 male and 15 female. The first eight months of this year brought 590 births and 389 deaths; the same period in 1933, 585 births and 456 deaths.

Thirty-three of the births were to Salem families, 50 to families outside of Salem residing in the county and seven to non-residents.

The ratio of girl to boy babies for August also reversed the trend for the two eight-month periods mentioned.

Communicable diseases accounted for three of the deaths. Other causes included: Cancer 6, apoplexy 3, heart disease 3, kidney disease 5, automobile accidents 2, other accidents 2, and all other causes 7.

The accident happened on the river road south of town, and both Carey and his wife were injured to some degree.
