

BEARCATS WIN OVER PIRATES

"Scooter" Oravec Crosses Albany Goal Line Four Times on Long Runs

crowd of Pirates to cross the goal line. Wedgerber, who has not missed a conversion kick this season, kicked for point after goal.

Second Touchdown Is Acquired Rapidly
Conners kicked to Fitzpatrick who was stopped on the Albany 24-yard line. Albany tried a play, then kicked to Oravec who took it on the Albany 47 and in six plays, in five of which Oravec carried the ball, the Bearcats punched across for the second touchdown. One of Oravec's dashes through tackle went for 25 yards.

Albany, having failed to get anywhere through the Bearcat line, opened a pass attack in the second quarter that got nowhere as Granis, Frantz and Welserber knocked down all attempts. A pass intercepted by Frantz on the Willamette 45-yard line started the Bearcats on another march toward the Pirate goal which was stopped by a 15-yard penalty for holding, the first of several which marred Willamette's otherwise excellent play.

From the Albany 39-yard line, after an exchange of kicks, Oravec got away for 26 yards to the Albany 13 from where he went over the goal line. The play was called back to give Willamette an off-side penalty which was neutralized by a similar penalty on Albany on the next play, and Oravec repeated from the Albany 13 to score the third touchdown.

In the third quarter Mills, who played an exceptional game at right half, and Oravec divided 56 yards evenly as Mills carried the ball from the 59 to the Pirate 25 and Oravec went through tackle again for the final score. Welserber kicked his sixth successful try for point since the Willamette season began.

Albany's lone score came in the final quarter against reserves when Fitch passed 25 yards to Kiehlblock who was standing in the end zone. Cook's kick for point was unsuccessful.

fronted him with revolvers when he stopped to offer them aid because their automobile apparently was stalled. After he helped them his car was not speedy enough for their use, they ordered him to "read down the road," he said.

Officers expressed belief one of the two men with Floyd was Rich, and that the other was Shino Bush, a known companion of "Pretty Boy" and Richetti. The man believed to be Bush was on the rear seat of the car, groaning in apparent pain, Blanchard said.

Mount officers, who had been watching for Floyd since he escaped after a running gun battle with Iowa officers, immediately took up the chase immediately.

Church Leaders Plead for More Mission Support

ATLANTIC CITY, N. J., Oct. 12. —(AP)—With the cry, "Christ or chaos," the church's answer to the spiritual unrest of a troubled world, Episcopal leaders pleaded today for unrestricted continuance of foreign and domestic missions.

A joint session of the house of deputies and house of bishops at the 51st triennial general convention of the Protestant Episcopal church in America, heard Dr. Lewis E. Franklin of Washington, D. C., vice-president and treasurer of the national council, present a deficit of more than \$750,000 which only the united support of the American laity, he said, can offset.

Families Now on Relief Are Near Peak, Announced

WASHINGTON, Oct. 12. —(AP)—The relief administration figured today that 4,000,000 families—within 700,000 of the all-time peak recorded at the end of the OWA last April—were dependent on relief payments during August.

Harry L. Hopkins, relief administrator, told newsmen that the number of relief-supported families had jumped 200,000 from July to August. He intimated the total was still going up slowly.

ZIMMERMAN SAID TRAITOR TO CAUSE

(Continued from page 1)
they were off the political stage between speeches in order to get the vote of the poor.

"Bah," snorted Correll. "They are afraid to come out in the open with their statements. They are afraid that the lids of the campaign chests might be snatched shut. Think of it! Against the sales tax, but privately advocating a measure that would chip a 10 per cent tax on commodities."

However, Correll hastened to advance the communist plan for an old age pension system. After briefly but skillfully damning trusts and the war department, he declared, "House bill 7592 solves the question of an old age pension. It provides \$40 per month for the aged, with an additional three dollars per month for each member of the family. We'll get it by slapping a levy on the big boys, and soaking the war department."

Winding up his speech, and starting off his campaign for governor, Comrade Harr struck a Napoleonic pose, and trumpeted, "We are refusing to starve, to accept wage cuts, and the lowering of the American standard of living. Labor is rising up and demanding the things that it must fight for to get."

ENFORCEMENT OF CODES, F. R. PLEA

WASHINGTON, Oct. 12. —(AP)—In a move to strengthen the enforcement of blue eagle industrial codes, President Roosevelt today called upon three federal agencies to cooperate in this police work.

He formally abandoned previous plans for creating a separate judicial branch in the new NRA. The job will be taken over by the NRA, the justice department and the federal trade commission. Mr. Roosevelt explained that a study had disclosed that about 95 out of 100 trade practice complaints could be settled by the NRA compliance division without reference to the justice department for prosecution.

The presidential decision was reached just as Clay Williams, NRA chairman, stressed a determination to get the best code compliance possible. Coincidentally he formally heralded to newsmen an end to the "spectacular and glamorous" NRA of Hugh S. Johnson.

VALUES STAY SAME FOR TAX PURPOSES

The order of Charles M. Thomas, state utility commissioner, issued here Thursday, reducing the valuations of the local exchanges of the Pacific Telephone & Telegraph company from \$24,208,789 to \$16,900,000, will have no direct bearing on the valuations of these properties for tax purposes.

Galloway said that valuations for rate-making purposes were based upon what has gone into the properties, cost and present conditions, while the basis for taxing purposes is returns and earnings. The last valuation of the telephone company's properties, based on earnings and investment, was \$20,000,000, Galloway declared. The tax commissioner said his office also took into consideration the future business possibilities of the districts in which the properties are located.

Galloway declared that despite the order of the state utility commissioner reducing the telephone company's valuations for rate-making purposes the value of the properties might be maintained at their last year's level or be increased for tax purposes. Valuations of all public utilities are fixed by the state tax commission while so-called local valuations are determined by the county courts, subject to review by the boards of equalization.

MORE SAFEGUARDS URGED BY PROBERS

WASHINGTON, Oct. 12. —(AP)—Without specific legislative recommendations, the senate banking committee today wound up its stock market investigation by urging greater safeguards around investment trusts, holding companies and bank management.

Senator Fletcher (D-Fla.), chairman of the committee, said the investigation begun almost eighteen months ago already had resulted in legislation for the control of stock markets, the guarantee of bank deposits and separation of investment and commercial banking. Further legislation, he added, might be necessary.

"There remain for our immediate consideration, however," Fletcher wrote in the final report, "vital matters relating to the conduct and management of banking institutions, such as truthful and adequate financial statements, nature and diversification of loans and security, proper banking reserves, trust function of banks, effective governmental examination of banks, employment of bank examiners, window-dressing activities of banking offices and other similar problems."

sides the man who snatched her from her home were involved in the case.

It was a lone man who got in the Stoll home in the fashionable but remote upper River road neighborhood Wednesday on the pretense that he was a telephone repair man. He cowed Ann Woollet, the maid who let him in, with a pistol, made her tape her mistress' hands then tied and gagged her.

Mrs. Stoll was in a negligee. She had been ill. The women were alone in the house. When she offered him a check to let her go the man hit the young society matron over the head with an iron pipe. Bleeding, she pleaded with him.

"If Berry comes in I'll kill him," the kidnapper said. He hastened away with his victim after allowing her to get a blue and white checked coat.

Since Mrs. Woollet saw her rushed out the door to a small car, the daughter of one of Ketchikan's prominent families has not been seen or heard from by her friends.

VICTIM WITNESSES CALLED IN CHICAGO

FEDERAL COURT, Chicago, Ill., Oct. 12. —(AP)—Two of the thousands of customers who bought stock in Samuel Insull's corporation securities company of Chicago testified today they were told it was a choice investment for "certain friends" and "good customers."

First of a long line of "victim witnesses" which the prosecution will call in the mail fraud trial of Insull and 16 others, they were introduced not to testify to losses, but in support of the government's contention that Halsey Stuart & Company, investment bankers, "pushed" the stock.

"A salesman told me his company was recommending corporate security allotment certificates to certain friends," said F. H. Kuhlman, Cincinnati tobacco dealer.

"He said it was offered at \$75, although it was selling for \$95 on the Chicago market. He said: 'If you want \$0 units, you'd better subscribe for 100.'"

"What happened?" asked Forest A. Harness, assistant U. S. attorney general.

"I got a telegram notifying me that my allotment was 100," said the witness.

New NRA Chiefs Know Nothing of Their Pay Rate

WASHINGTON, Oct. 12. —(AP)—Perhaps it is a White House oversight, but so far as NRA's new governors know officially, they are working for nothing.

Clay Williams, board chairman, was asked today what salaries its members were receiving.

"I've been around here some time but so far I've never heard of salaries," Williams said.
