right, 1984, King Festures Syndicate, Inc.

NEW YORK, Oct. 16.-(P)-Fin-

ancial markets took a new grip on

recovery today and sentiment, which was rather cloudy yesterday, improved noticeably under the stimulus of advancing prices. Without any especial news influences to account for the change of front, stocks, staples and bonds stepped along side by side in the

steady forward movement. The turnover in stocks amounted to 677,530 shares against 508,-176 on Monday, and the Standard Statistics Co. average for 90 is-sues registered a net advance of eight-tenths of a point at 72.2. This average was off a similar

amount yesterday. The strength of U. S. government securities doubtless stiffened the morale of the sound money forces and expanded buying in prime investment loans as well as in equities. With inflation talk dying down to a murmur, proponents of currency stabilization were disposed to see hopes for a better stock market on a more firmly grounded dollar.

**AUGUST SHOW GAIN** 

Farmers' cash income from sales of farm products, AAA benfit and rental payments, and from cattle bought by the government totaled \$572,000,000 in August, or \$78,000,000 more than in July. and \$159,000,000 more than in August last year, according to estimates by the Bureau of Agricul-tural Economics. Income from these sources dur-

ing the first eight months of this

year totaled \$3,642,000,000, or

\$717,000,000 more than during

the corresponding period last year. Income from sales of farm products alone the remainder of this year will, it is expected, exceed that of the same period last year when sales totaled \$1,965,-000,000. The estimated income for August is composed of \$499,000,000 from sales of farm products, \$47,-000,000 from the AAA, and \$26,-000,000 from emergency purchas-

tal of \$572,000,000. Grays Harbor, Washington, shipping in August was the largest in respect to tonnage for any

es of cattle by the government in

the drought areas, making a to-

month since Septembr, 1931. White, No. 1 \_\_\_\_\_\_ Barley, feed, No. 1, ton \_\_\_\_ Malting, ton \_\_\_\_ Feed, ton Hay, buying prices-Clover hay
