A total of 10 new elevators are being installed in the capitol, but they replace 10 old and antiquated ones. Believe it or not some of these old elevators had been in service for more than 40 years. The new ones will be the last word in uplifts and many young congressmen will likely play hooky from important meetings to ride up and down on them.

STOCKS HOLD FIRM BUT BONDS SLUMP

NEW YORK, Nov. 20.—(AP)—Stocks managed to keep above water today, but most other financial markets were unable to come up for air.

The Standard Statistics Co. composite for 90 selected stocks got back three-tenths of a point to 100.8 from 100.5 in the previous session, closing at 72.8. The turnover amounted to \$70,010 shares.

Optimism regarding the dividend action to be taken tomorrow by the American Telephone directors was reflected in a recovery in these shares of 2 1/2 points at 105. Only a few days ago this issue sagged to just above par. Telephone's upturn was attributed partly to short covering.

Shares of the Associated Dry Goods which owns the majority of stock in Lord and Taylor department stores, spurred on the overnight announcement that the Lord & Taylor directors had voted on an extra dividend of \$50 a share, in addition to the usual holiday extra of \$5 and the regular quarterly disbursement of \$2.50. Associated First preferred advanced 9 points, the second preferred was up 6 1/2 and the common issue gained a point. Most other merchandising shares, however, were listless.

Increases or extra were also declared by Mesta Machine, Beachnut Packing and a number of other companies. Shares of Mesta advanced fractionally, but the Beechnut stock was not traded.

There was little news to account for the softness of the rails. Delaware & Hudson was off 2 points, Union Pacific nearly as much as Santa Fe yielded more than a point.

While Moranda Mines eased to a new 1934 bottom, most of the metals were not especially weak despite the apparent subsidence of inflationary psychology.

Turkey Demand is Gaining

INCREASES FASTER THAN NEW SUPPLY

PORTLAND, Nov. 20.—(AP)—Turkey demand continued to increase faster than the rapidly gaining supplies. In point of demand the present market is one of the best seen in this state for several years. Current call was about as good as ever shown here during any previous year although prices were not so high. Values were advancing a little almost every day with occasional premiums of 1/4 to 1/2 lb. over the general price for fancy small birds.

Hens were being more eagerly sought than toms because of the huge size and weight of the male offerings. These generally were commanding a fractional premium.

Quality of turkeys was rather badly mixed and this was proving some handicap to values inasmuch as the shipping demand was chiefly for No. 1 birds. A much larger per cent than usual was going into the No. 2 class on account of the lack of proper feeding.

Prevailing prices were 16-22c for dressed birds and 14-16c alive.

GRAINS GO LOWER ON PROFIT TAKING

CHICAGO, Nov. 20.—(AP)—A profit taking movement, uncovering stop loss orders and disclosing a technically overbought market, hammered wheat and corn prices down for sharp losses today.

Trade news was not as bearish as the price fall indicated although foreign markets were weak and rains in the domestic southwest were believed to have mitigated drought danger in some sections. Continued steadiness of the cash market helped corn futures to establish new season's high marks before the recession.

Wheat closed 1 3/4 to 2 1/8 cents lower than Monday's finish, Bay at 97 7/8 to 98, and corn was 1 3/8 to 1 7/8 cents off, May 84 1/8 to 85, rye and provisions also were lower.

Today's closing quotations:

WALNUTS OFFERED

A step to solve the marketing problems of walnut growers who have only one or two trees is seen in announcement from the walnut control board offices in California that the board has a hand walnut grader which is available now to such small producers in this city as might wish to use it.

The information, received by County Fruit Inspector S. H. Van Trump, states that the grader will be furnished free to the growers, who must do the work. The grader will be here a short time and then passed on to other localities. It was made by W. W. Rosebraugh here.

WEAKNESS IN EGG MARKET DISPUTED

PORTLAND, Ore., Nov. 20.—(AP)—Extreme weakness of the egg market was suggested in downward revised offers for supplies although a little warfare in this regard was showing.

While general buying and selling price on eggs here was sharply reduced for recent days as a result of demoralized trade conditions in New York, some of the buyers with an eye to edging out competitors were quoting a higher buying price than their selling cards call for.

Just how this condition can be continued in face of NRA regulations which prohibit sales at a loss is not known.

With a greater differential between extras and standards, the demand for butter was increasing in the second grade and decreasing in the first. There was no general price change for the day.

Demand for chickens holds firm but the trade was being warned that live arrivals must be rushed as the trade later will be confined chiefly to dressed supplies.

Market for country killed meats was holding fairly well in all divisions although there continued slight easiness in spots for heavy calves with a fairly liberal run.

Announcement was made by the Tillamook association of an advance of 1c in loaf cheese but no change in triplets. The differential is now 2c lb. instead of 1c.

Further price advances and the previous loading up of the trade at lower prices, created a nominal movement into retailers' hands according to leading distributors. High prices were being maintained elsewhere.

Shading of a nickel or so continued almost general in the local potato market even though an open cutting was suggested at the source.

Ontion market continued with the chief sale here consisting of Yakimas at a sharp cut under Oregon.

GRAINS GO LOWER ON PROFIT TAKING

CHICAGO, Nov. 20.—(AP)—A profit taking movement, uncovering stop loss orders and disclosing a technically overbought market, hammered wheat and corn prices down for sharp losses today.

Trade news was not as bearish as the price fall indicated although
