Man Can Talk With God, Says Noted Psychologist

A new and revolutionary religious teaching based entirely on the misunderstood sayings of the Galilean Carpenter, and designed to show how we may find, understand and use the same identical power which Jesus used in performing His so-called Miracles, is attracting wide attention to its founder, Dr. Frank B. Robinson, noted psychologist, author and lecturer. "Psychism," this New Psychological Religion, believes and teaches that it is today possible for every normal human being, understanding spiritual law as Christ understood it, to duplicate every word that the Carpenter of Galilee ever did—i.e., believe and teach that when He said, "the things that I do shall ye do also," He meant what He said and meant it literally to apply to all mankind, through all the ages.

Unless Power Can Be Used Dr. Robinson has prepared a 4000 word treatise on "Psychism," in which he tells about his long search for the Truth, how he finally came to the full realization of an Unseen Power or force so dynamic in itself that all other powers and forces fade into insignificance beside it—how he learned to commune directly with the Living God, using this mighty, never-failing power to demonstrate health, happiness and financial success, and how any normal being may find and use it as Jesus did. It is now offering this treatise free to every reader of this paper who writes him. If you want to read this highly interesting, revolutionary and fascinating story of the discovery of a great Truth, just send your name and address to Dr. Frank B. Robinson, Dept. X, Moscow, Idaho. It will be sent free and postpaid without cost or obligation. Write the Doctor today. Copyright 1933, Dr. Frank B. Robinson—Advertisement.

The New Ford V-8 for 1935 A New Kind of Motor Car—Designed for Easy Riding

"New Seat Position" "New Eight Distribution" "New Longer, More Flexible Springs" In the New Ford V-8 for 1935, all the weight of car and passengers is correctly balanced and distributed. Seats are moved forward so that passengers on the rear seat ride nearer the center of the car. This, with new spring suspension, and longer and more flexible springs, gives new smoothness, ease and riding comfort on every road.

For 1935, Ford has taken another revolutionary step forward. To the proved performance of the famous Ford V-8 engine has been added remarkable riding comfort. And the entire car has been clothed with a new and modern beauty, both inside and out. The illustration on this page shows the distinctive modern lines of the New Ford V-8 for 1935. When you see the car in the showrooms or on the road you notice at once its larger size as well as its handsome appearance. It is longer, with more body room, more leg room and more baggage room. It is lower to the ground — easier to step in and out. The front seats are as much as 5 1/2 inches wider in some body types. The curved gear shift lever gives additional front-seat comfort. NEW, LONGER SPRINGS OF UNUSUAL FLEXIBILITY The springing of the New Ford V-8 for 1935 is entirely new. The springbase of the car (the distance from the front to the rear spring) is 123 inches, or eleven inches longer than the wheelbase. This has been accomplished by mounting the front spring in front of the front axle and the back spring in back of the rear axle. This design gives you increased comfort without sacrificing ease of handling. Front and rear springs are longer and more flexible, with tapered leaves for the most effective spring action and quieter operation. NEW FEATURES FOR SAFETY, COMFORT AND EASE OF HANDLING See the New Ford V-8 at the showrooms of Ford dealers. They have many interesting things to tell you and show you about its outstanding V-8 performance and comfort, luxurious new upholstery and appointments, improved, quiet-stopping brakes, new easy-pressure clutch, easier steering, new rigid X-type frame, Clear-Vision Ventilation and the many other features of the car. All 1935 Ford V-8 cars have Safety Glass throughout, at no additional cost. All have all-steel bodies. 12 BODY TYPES \$495 AND UP (F. O. B. Detroit.
