NEW-YORK, March 18-(AP)-Stock market forces had their headaches today trying to cope with the foreign political and monetary developments and soggy commodity markets at home. During most of the session stocks were offered at concessions from the previous close ranging from fractions to around 2 points for active issues. But no very vigorous selling developed and by the close many equities

had recovered around half of their extreme declines. American telephone was another leading issue to sell during the day at the lowest levels since 1933, although the general market uneasiness, rather than specific news, appeared responsible for its slip. The final price was 99%, off 2 points on the day,

and it ended below par for the first time since May, 1933. Despite the state of nerves in market quarters, equities were not pressed for sale in any great volume. The turnover for the day was only 593,7172 shares, the smallest activity in 10 days. The associated Press average for 60 stocks declined .3 of a point at 34.9.
