

# RALSTON ENDS SCIO SERVICE

### Pastor Will Assume Pulpit At Mill City This Sunday Morn

SCIO, March 21.—A large congregation gathered Sunday for the farewell sermon of Rev. E. W. Ralston of the Scio Christian church, who is to assume the pastorate at Mill City next Sunday. Rev. Ralston has occupied the pulpit here for several years, at times serving the Crabtree and Bilyeu churches in connection with the Scio unit. He and the family will continue to reside on their small farm a few miles east of Scio. It is stated no definite plans have been made for Rev. Ralston's successor here, but Rev. V. L. Loucks of the local Baptist church will occupy the pulpit April 7.

### Views Bridge Work

Max Wesley returned Monday from a brief trip to San Francisco and Oakland. Work on the bridge spanning the bay between the two cities is an impressive scene, Max says. It is to be the longest bridge in the world, almost nine miles in length. His sister Frances and her husband are in Berkeley, where the former is attending the state university.

Clola Gallegly, who is to be graduated in June from the state normal school at Monmouth, has been elected to teach the Salt Lake school, between Lebanon and Lacomb, next year. She is the daughter of F. A. Gallegly, principal of the Scio high school.

A 1670-pound Hereford bull, recently sold by the Kotan brothers, pioneer farmers in the Scio area, brought \$83.50. Two yearling steers weighing 1200 pounds, grown on the same farm, sold for \$74.60.

### Closing Farm Deal

Negotiations are under way for the sale of the G. L. Muzzy 82-acre farm on Hungry Hill to Mr. Walters, a recent arrival from Nebraska. The purchaser is to take possession at once, and his mother will join him in the near future.

Mrs. Grace Christiansen of Portland, president of the Oregon Rebekah assembly, will visit Scio unit Saturday night, March 30. Refreshments are to be served and degree and other ritualistic work may be exemplified.

Charles Hart, pioneer farmer and orchardist operating at Greens bridge, near Jefferson, for many years, is announced as chairman of the Albany district committee of the Oregon-Washington melon and tomato agreement.

### Sheridan Girl Is Elected to Teach At Labish School

LAKE LABISH, March 21.—Miss Genevieve Seth, of Sheridan, graduate of Monmouth Normal school, has been elected to teach Lake Labish school for the next year.

Mr. and Mrs. Clyde S. Moore, of Willamina, were weekend guests at the Thomas W. Sellwood home. The Moore's were married in Salem on March 15.

# Community Clubs

### LINCOLN, March 21.—Roberts community club will give a play, "All a Mistake," at the Lincoln community club, Friday night. A small fee is to be asked for adults but there will be no charge for children. The Mitchell serenaders of Salem will furnish music.

### BETHEL, March 21.—The community club will meet Friday night. The refreshment committee asks that every family bring sandwiches. There will be a program with a debate.

### PERRYDALE, March 21.—A very fine program was enjoyed Tuesday night at the community club and was arranged by Doris Gettman and Doris McKee. President Arthur Christensen appointed Mrs. Fay Morrison and Helen McMillan to arrange for a supper at the next session. Mrs. C. Van Staavern and Mrs. E. S. Stultz are the program committee.

This program was given: Tap dance by primary girls accompanied by Miss Helen McMillan; piano solo, Geraldine Briley; readings, Virginia Stapleton and Beverly Zumwalt; trio by Strickwerda girls and Melba Erwin of Enterprise; skit, Mr. and Mrs. Harold Stapleton; two songs by the male quartet accompanied by orchestra; a skit by the pupils of Enterprise; duet, Fay and Eugene Morrison accompanied by Lert Lee on the trumpet; duet, Eugene Morrison and Wallace McKee.

A checker tournament was held with 15 couples playing. Mr. Briley of McMinnville, a guest at the home of his daughter, Mrs. Levi McKee, won the prize.

# WOMAN GETS JOLT FOR DRUNKEN DRIVE

SILVERTON, March 21.—Evelyn Whitney McGrew gave two local officers a merry chase late Wednesday night following a report that someone was running wild in a light truck. S. A. Pitney, constable, and Lloyd Kennedy, night officer, took up the trail immediately but had considerable trouble in catching her as she bounded about town, running into people's gardens and missing other motorists only because they took to curbs and sidewalks. Kennedy finally caught Mrs. McGrew, after he had barely guided the police car out of her way, in front of the L. C. Eastman home on West Main street.

Thursday afternoon Mrs. McGrew pleaded guilty before Justice of the Peace, Frank Alfred, to driving while intoxicated. Alfred placed a fine of \$100 and 60 days in jail as sentence. Mrs. McGrew spent the night in jail with Mrs. Pitney acting as police matron.

Mrs. Moore (Daisy Belle Graves) coming here from Sioux City Iowa.

# OLD POSTOFFICE IS TO BECOME TAVERN

### Rumor Says Effort Under Way to Have Market Road in Mine Region

SCIO, March 21.—It is reported that efforts will be made to have the road from Mehama to the national forest boundary declared a market road; also that the difficult road over Neneline hill may be eliminated this year and a new bridge constructed over Neneline creek with a much better grade leading thereto.

The old Elkhorn property that once served as a postoffice for that region is being improved by its new owner, with the intention of converting it into a tavern for the accommodation of summer boarders. The place will be greatly enlarged and improved and a number of summer cabins built along the river. Tom Quillen and others are doing the work.

R. E. Peery and A. E. Chilcote of the Crown mine were at the property a few days ago checking on supplies and conditions in general preparatory to resuming work in the shaft. A pump to speed sinking operations is to be installed and other equipment needed to safeguard shaft men will be added. It is expected that work will begin within a short time.

A large amount of machinery and supplies has been taken into the Amalgamated mines area lately. A single consignment said to have contained 12 tons was taken in with trucks. Machinery such as boilers, engines, compressor and other supplies of air pipes, have been moved in. The Amalgamated company has extensive bodies of lead, zinc, copper, gold and silver ore opened up, as well as other lesser developed prospects that are said to indicate from surface showings potential mines of magnitude.
