PORTLAND, Ore., April 1.-(AP) -Local butter market appeared about steady with no changes in quotations other than those resulting from the changes in the state dairy code which puts the minimum retail price on the basix per cent mark-up specified by the national food code. Also the mark-up from exchange prices is now 21/2 cents on archment wrapped, 3 1/2 cents in cartons and 2 cents bulk on lots of less than 30 pounds. On case lots the markup is 2 cents, 3 cents and 1 1/2 cents respectively. Butterfat prices were correspondingly increased by one-half cent.

Eggs were unchanged except for a 1 cent advance on extras from the Saturday session of the exchange. The market generally was described by the trade as being somewhat easier. The advance on extras raises them to 20c, restoring a one cent margin between them and mediums. Local cheese market was in-

lined to be a trifle easier with

CHICAGO, April 1-(AP)-Prospective moisture in Kansas and Nebraska, together with somewhat enlarged 1935 crop estimates for the country as a whole, led to lower wheat prices today. An authoritative unofficial summary figured the United

States winter wheat crop this season, based on April 1 condition. as promising 470,000,000 bushels, compared with 406,000,000 bushels harvested last year. A feature of trade was considerable selling of wheat against simultaneous buying of corn.

Wheat closed easy, %-1% unier Saturday's finish, May 94% -%, corn % off to % up, May 80-1/2-%, oats unchanged to 1/4 lower, and provisions varying from 15 cents decline to 5 cents ad-
