

Sale! 18% Nickel-Silver Base Silverware

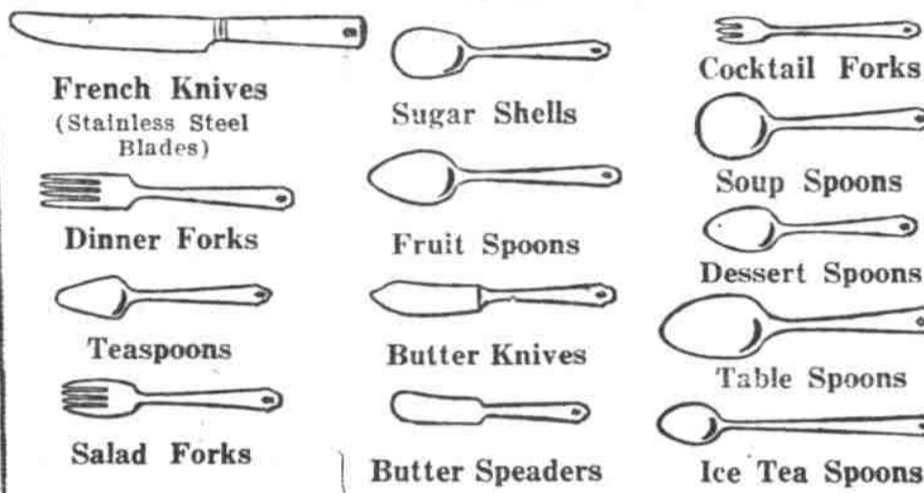

from a famous maker

ONLY once in a blue moon does such a silverware sensation come along. Thousands upon thousands of pieces were specially purchased to afford this value. The design is sparklingly modern, simple and beautiful—the patterns of the individual pieces are fashion-right, french-bladed knives, graceful spoons—the construction is pure silver plate on an 18% nickel-silver base, the same base used for the highest priced plated ware. With only reasonable care they will remain a joy to your table many years. And they're so thrifly priced you may use them for the breakfast nook—or even picnics.

*The name of the famous maker who created this silverware is associated only with high-priced lines, so we are not permitted to use it.
