We went into an eating place Friday to get a cup of coffee. We were afraid that the fellow who was waiting on us would get his cigarette ashes in our coffee so we told him so. He claimed that that was not so bad. He said those food inspectors come in his place and paw over the foodstuff without even washing their hands. He told us about when he was in the army (we suppose on K. P. duty) the inspectors always put on a pair of sterilized gloves before making their rounds. Guess we'll have to talk to the health office.
