Every Detail Worse Than in Early 1933

"It can not be denied," he continued, "that every detail of our social and business position in this country is worse now than it was in the beginning of 1933."

Item by item, he took up "state rights," public utilities, "control of business," "agriculture," and "campaign pledges" to emphasize his contention the president had repudiated his pre-election assurances to "turn back to paternalism, to bureaucratic control, and to executive orders."

"The duty of the republican party is apparent," he said. "The collapse that will follow the present course should be pointed out."

NEIGHBORS' BATTLE EFFECTIVELY ENDED

PORTLAND, April 6.—(AP)—An effectual armistice in the five-year neighborhood battle of Palatine hill was decreed today when District Judge George N. Woodley sent the two belligerents to jail.

Sim Nida, 238-pound batter, was sentenced to 60 days in jail for trespassing. His antagonist, J. C. Frank, who weighs only 175 pounds but reputedly used an iron pipe for an "equalizer," was sentenced to 30 days for assault and battery.

The latest encounter occurred when Nida was throwing tin cans and other debris into Frank's yard. It was declared, Nida said the trash was thrown into his yard from Frank's property in the first place.

"Both men should be sent to jail and taught a lesson or a coroner's inquest is likely to be the outcome," Deputy District Attorney John Collier advised the court.

crime with Barrow and the Parker woman.

At least one more appeal will be made for Hamilton's life. His mother, Mrs. Steve Davis of Dallas, told her son in his Dallas jail cell at dawn today she would go to Governor James V. Alford with a plea for his life.

Hamilton, visibly shaken when he first saw his mother, ran and embraced her. He kissed tears from her cheeks and for a half hour held her in his arms.

THREE MILLION FOR LANE COUNTY, HOPE

EUGENE, April 6.—(AP)—Uncle Sam's new deal spenders will place upwards of three million dollars in circulation in Lane county as this county's share of the vast work relief bill passed by congress, it was revealed here today.

This great spending spree will put approximately 1000 men to work in this area during the two-year period covered in the bill, it was announced.

In Lane county most of the money will be spent through the forest service and the highway department, it was said. The Willamette national forest has submitted estimates calling for the expenditure of approximately \$1,260,000 within the forest boundaries. It was announced by Perry A. Thompson, supervisor.

One phase of the program tentatively set up by Supervisor Thompson would mean the construction of a winter sports recreation area for the Salem area on the North Santiam.

The dedicatory exercises have been arranged by the United States Daughters of 1812 who have provided a bronze marker which will be placed at the grave of the Dorion woman in the church.

Discovery of the grave was made recently through the translation of the French burial records at the church.

Mrs. W. H. Lott, state chairman of the historic sports committee for the Daughters of 1812 will unveil the marker. The official dedication will be by the Rev. Edward D. Howard, archbishop of Portland.

desires it.

If Mrs. Pierce demands a hearing, Governor Martin will presumably present as his reasons for her dismissal the fact that she has attended only a small part of the board's meetings in the last two years and is prevented from serving on board committees by her absence in Washington.

No date has been set by the governor's office to bring the controversy with Mrs. Pierce to a head. However, administrative action here is looked for within this month.

Because of his acquaintance with Mr. Pierce in Washington and his connection with the con-

gressman as a member of the Oregon delegation, Governor Martin is known to wish to avoid an out-and-out fight with Mrs. Pierce. However sources close to the governor said yesterday that he would be willing to remove her and to conduct the hearing, if one is requested.

OILING SOUGHT FOR SILVER FALLS ROAD

The state highway department will be petitioned to oil the Silverton-Silver Falls road next Tuesday morning when a delegation representing the chambers of commerce of Silverton and of Salem will call on R. H. Baldock, state highway engineer.

The delegation will point out the great need for the oiling work since traffic over the road to the falls is increasing rapidly and early in the spring and throughout the summer dust on the road inconveniences the motorist.

The highway department will be asked to oil the road from east of Silverton to the first falls, then on through the park area to the Hall schoolhouse.

BRIGHTER OUTLOOK FOR JOBS IS SEEN

The employment picture as evidenced by jobs secured through the national re-employment agency here brightened noticeably last week, Miss Lois Barker, district statistician pointed out yesterday. Not only were more jobs found

but also wages showed a rising tendency.

The agency last week received and filled its first call in several months for cement workers. Two were placed. Other jobs filled were: Farm work seven, wood-cutting four, housework three, common labor three, dishwashing two, mechanic one and tractor operator one.

Farm wages as high as \$1 per day in addition to board and room were offered last week and the lowest was \$15. Until recently the average was \$15.

Plenty of Wood Is In Sight Now For Relief Use

Marion county has secured all the wood it needs for the relief of poor families for the next few weeks, the Marion county court announced yesterday. A fortnight ago it seemed that the court would have trouble in securing enough dry wood to be used for relief needs this spring. Through advertisements the court secured offers of several hundred cords of good wood, delivered at the county shops, at \$4.50 a cord. The court is also bringing in several hundred cords of wood from its woodlot near Turner.

A large quantity of wood is cut and ready for hauling in the Salem area as soon as weather conditions dry up the roads into the wooded territories, the county court found.
