Letters to U. S. Returned if Not Enough Postage

A warning from postal authorities was issued yesterday through Postmaster Henry R. Crawford that many individuals are sending packages and letters through the mails to government agencies, with insufficient postage attached.

All such agencies have been ordered to refuse such parcels or letters which are insufficiently stamped, ordering them returned to sender if return address is available.

By having postal employees check such items before mailing, the proper amount of postage could be ascertained and prompt and efficient delivery of mail would result.

Radio Program
Governor Martin refused Monday to parole Earl H. Fehl, ex-county judge of Jackson county, and Walter J. Jones, former mayor of Rogue River, who are serving four-year terms in the state penitentiary for ballot thefts.

Paroles for Fehl and Jones were recommended by the state parole board at a meeting here two weeks ago.

Governor Martin said he had given the parole board's recommendation careful consideration but found himself unable to release them at this time.

Both Fehl and Jones completed their minimum terms last November.

INCREASE IN MAKE OF BUTTER SHOWN

PORTLAND, May 20.—(P)—A slight increase in butter churned in the Pacific northwest was suggested by a total showing of 345,245 pounds locally last week compared with 326,330 pounds a week ago. The local exchange showed a loss of 1/4 for standard and firsts.

Rise in local egg prices during the late season of the exchange, which included 2c for specials or large eggs and 1c each for extras, medium extras and standards, followed the further rise elsewhere. Receipts last week showed fractional loss.

Sharp drop in local prices on country killed lambs has followed an unusually heavy supply received here during the last few days. A considerable supply was carried over from last week.

Good demand was continued in the market for country killed calves although late receipts have been fair. Hogs were about steady in market, which showed no material change in values.

Slightly lower prices were being named for California strawberries but demand was quite good and fruit of fairly good quality. Some additional supplies from Irrigon were reported with quality good.

New potatoes were about steady. Carload Texas tomatoes of fancy quality in and all tomatoes were generally a trifle down.

Carload of string beans from California, the first of the season, was reported in during the day with fine quality.

A check on the types of alfalfa which produce best in Marion county has just been completed by K. W. Sawyer working through the office of County Agent Harry L. Riches. Nine different types of alfalfa have been planted at various places in the county; the planting was completed yesterday.

Previous experiments show that the Idaho and Montana-Russian Grimm alfalfa produce best in this region, but to more fully check former results, patches of all types have been planted. These species are (1) eastern Oregon common, (2) California common, (3) Cossack, (4) Willamette Grimm, (5) Lodak, (6) Idaho Grimm, (7) Arizona common, (8) Montana common, (9) Chilean.

Sawyer said that this is truly an experiment to see what results will be throughout the county on the test. Planting has occurred at C. W. Humphreys' in Waldo Hills, at O. J. Rice's near Woodburn, at Dick Kilmour's at Talbot, at Lloyd Kenner's of Shaw and C. A. Hoover's near Gervais. Only typical average growing conditions will prevail.

The check will extend through soils. Four different types of soil—Polk clay loam, Amity silty clay loam, Chehalis soil, and Willamette loam, are being used. Lime at the rate of two tons per acre is also used as a sweetener. In order to check more accurately, the different types of alfalfa are grown side by side, 18 inches apart, in rows.

Farmers are urged to make occasional visits to these places to observe growth of the plants.

Call for Section Hands is Quickly Filled at Agency

A call for five section hands to work through the summer on the railroad near Black Rock yesterday brought instant response at the national reemployment agency, 355 North High street.

Manager D. D. Dotson said it was 15 minutes and seven seconds by call by telephone and the time he returned it, announcing he had signed up the men wanted. The job will pay 40 cents an hour with a 48-hour week.

Four more strawberry pickers were placed yesterday, these in the F. F. Lohr fields.

Vote on Wheat Control Ending

Results of the national wheat control program referendum which closes May 25 will not be known until about the last day of May, according to the schedule for counting and reporting ballots. County committees will meet Monday, May 27, to count the votes and will report totals to the state extension directors by noon Tuesday. State directors are to report to Washington not later than May 29, giving state totals.

Announcement of national results will be made at Washington.

Gardeners' and Ranchers' Mart

PORTLAND, Ore., May 20.—(P)—Heavier supplies and new produce spurred activity at today's session of the gardeners' and ranchers' market.

The first Oregon strawberries and the first peas finally appeared in saleable quantities and created quite a stir of activity.

Although California berries were down to a range of \$1.65 to \$1.75, two shipments of berries from Tigard and Canby held their own at a steady figure of \$2.50 per crate of 24 pints. Oregon berries were of good quality and all berries moved briskly.

A truckload of peas from the Dalles moved reasonably well at six cents a pound, but California peas took the play at four to five cents.

Lettuce from Oregon and Washington was of various qualities and the quotations were unsteady.

The old potato market remained dull.
