

# HUNDREDS VIEW GARDEN SIGHTS

### Cooley, Kleinsorge, Ames Flowers are Viewed; Jack Lawn, Too

SILVERTON, May 20.—Sunday proved garden day at Silverton. Hundreds of visitors chose that day to come to visit the many lovely gardens here.

All day long visitors thronged the Cooley iris gardens where "open house" had been announced. Not only were the irises unusually lovely, but the late flowering lilacs were also much admired.

While they were in town, as the visitors remarked, they might as well look up several of the other gardens for which Silverton has become famous. So Dr. and Mrs. R. E. Kleinsorge played host at their gardens to over 200 visitors. Dr. Kleinsorge has originated many of the fine irises now on the market. While the grounds surrounding his home are beautiful, it is across the street, in a small business-like garden square that the iris hybridizing is progressing. Among the lovely flowers which created a sensation at the Cooley gardens was the Itasca, an origination of Dr. Kleinsorge's. The doctor has this year secured new seedlings which have come into bloom and which attracted much favorable comment Sunday. Among the new ones was a group in smoky, hazy, very early-morning shades which were striking.

Several of the visitors crossed the street to the gardens of Mr. and Mrs. S. Ames, among the loveliest in town, and throughout the day W. S. Jack spent his time explaining to visitors that the salt really does not kill lawn grass if used in proper doses. The fact, when it was learned this spring, that Mr. Jack used salt on his lawn grass, has attracted an unusual amount of attention from lawn-growers.

The Cooley gardens in Gelsler addition on James street will be open to the public throughout the week. Lights on the flowers seem to be most attractive between 6 and 7 o'clock in the evening.

**"THEY DON'T GET YOUR WIND" ATHLETES SAY**

So mild, athletes smoke as many as they please—and that's real mildness!

Of course you want mildness in a cigarette. And the athletes—to whom "wind," healthy nerves, "condition" are vitally important—insist on mildness. Lou Gehrig, baseball's "Iron Man," says: "Camels are so mild they never get my 'wind.'" George Barker, intercollegiate cross-country champion, says: "Camels are so mild, they don't cut my 'wind' in any way." Bobby Walthour, Jr., star of the six-day bike grinds, says: "I've got to have 'wind' in bike racing. For my cigarette I long ago chose Camels."

Tommy Armour, speaking for golf, Bruce Barnes for tennis, and Betty Bailey for the aquatic sports—all agree: "Camels don't get your 'wind.'"

What this mildness means to you!...It means you can smoke as many Camels as you please. Athletes say Camel's costlier tobaccos never disturb your nerves—never tire your taste—never get your "wind."

**GOOD NEWS!** Most of the pleasant things in life are doubly pleasant when you're "in condition." That's why it's such good news to hear that Camel's costlier tobaccos are so mild you can smoke all you please. Athletes say Camels never get your "wind."

**SO MILD YOU CAN SMOKE ALL YOU WANT!**
