GOLD STORAGE GETS INITIAL APPROVAL

Silvertown Plans System to Be Modeled After That of Mt. Angel

SILVERTON, May 28.—Considerable interest is being displayed at Silvertown in the proposed refrigeration locker system here. While such a business has been brewing for sometime, it broke into the open Monday night when Oscar Lee called a meeting at the city hall for the purpose of discussing its feasibility here. Edwin Overlund, a member of the board of directors of the Mt. Angel creamery which has been operating the lockers there since last autumn, was present and explained the working of it.

Mr. Overlund also said the Mt. Angel board was willing to cooperate with Silvertown in every way possible. Talk had been, he explained, that Mt. Angel should put in more lockers, but the board members felt that it would be but a short time until each town had its own locker system anyway and that it would be a better business move all around to arrange for one at Silvertown at once. Several renters of lockers at Mt. Angel were present Monday night.

Those attending the meeting had contacted others and reported that evidently no difficulty in selling locker space at Silvertown would be encountered. Users of lockers explained that not only meat, but fruits and vegetables were kept in the lockers.

The feasibility of using the old Garver and Graham ice plant was discussed. Overlund estimated the cost of installing a locker system, without the cost of a building, at \$7000. Of this \$3100 was for the installing of an ice machine. It was explained that as the old ice plant at Silvertown, built only a few years ago, was equipped considerable of the \$7000 cost could likely be eliminated. However, those favoring the locker system here, were for a modern plant in every way. A committee appointed to investigate, consists of George Hubbs, Earl Adams, Oscar Johnson, Elmer Lorence and the chairman, Oscar Lee. This committee will report back at a meeting to be called within a week.

Attending the Monday night meeting were Hubbs, Adams, Johnson, Lorence, Lee, G. D. Bowen, George Kaufman, Andrew Pederson, Alfred Lee, William Graham, Albert Furrer, Alvin Krug, Henry Alm, Conrad Dahl, Dr. P. A. Loar, Edwin Overlund and W. P. Scarth.
