Neet Recommends Machine System to Grand Jury and County Court

Marion county's tax collection accounting machinery will be made the most efficient and modern in the state if recommendations made by the sheriff's office She alleges that Bueermann has here meet with the approval of

A major change proposed by L. E. Neet, deputy sheriff in charge of collections of taxes, is the installation of a bookkeeping machine to record all tax charges in a looseleaf ledger system. Instead of utilizing large bound books for each year of taxes the ledger will record the taxes cumulatively so the inspection of one ledger card will show the aggregate of taxes assessed and paid on any specific piece of property. Control Ledger Planned

With the ledger system there will be installed, if the new tax accounting plan is approved, a City of Salem. The gross value of general ledger setup for the control of the tax accounts receivable. With such a system the tax col-

is accomplished.

Economic tides are running in favor of Oregon, said Frank Mc-Colloch, public utility commissioner, in addressing Salem Rotarians yesterday. It is important that there be no political experiment station and boat-rocking to kill the effect of these tides and prevent Oregon from making rapid progress in the next six to eight years. Speaking as a native of Oregon, who through residence on both sides of the mountains had intimate acquaintance with the state, McColloch commented on the advantages and the drawbacks which Oregon had had. Comparative development of neighboring states has been more ranid he said

Now, with new power development virtually at tidewater, there open opportunities for attracting industries and promoting development. The range for economical power transmission is about 200 miles, and that means, he said. that western Oregon and the Willamette valley should profit most
