GROSS PRODUCTION THIS YEAR NORMAL

Says Farm Crops Estimate; Price Level Shows Slight Slip

With more acres planted, better growing conditions, and more people on farms than a year ago, gross agricultural production in the United States may be expected to be more nearly normal in 1935, says the monthly report on agricultural production just released by the Oregon State college, division of agriculture.

Gross agricultural production in 1934 fell about 15 per cent below normal, due to increased plantings and heavy drought damage. This year, 42 million more acres have been planted to crops and growing conditions are a good deal better, the report points out.

The farm population registered a net increase of 270,000 people during the past year, bringing the total increase since 1929 up to 2,500,000. In spite of the increase in farm population, however, the circular says that the demand for hired labor this spring was strong and farm wages advanced nearly 10 per cent during the first quarter.

The general level of farm prices in the United States has slipped back a little from a peak at mid-April of 84 per cent of the 1926-1929 average. Farm prices in the whole country are nearly 30 per cent below the pre-war purchasing power level, and nearly 30 per cent under parity in Oregon, according to data given in the circular.

After raising 11 per cent fewer chickens in 1934, farmers probably will increase the number raised this year as there were 10 per cent more chicks and young chickens on farms on May 1 than a year ago. The report also reviews the situation in respect to wheat, pastures and ranges, hay, fruit and nut crops.

LARGER YIELDS OF GRAIN IN PROSPECT

CHICAGO, June 5.—(AP)—General belief in the United States governs that crop report Monday will show larger yields than the unofficial estimates would indicate tended to ease wheat prices today.

A good deal of notice, too, was taken of trade statements that in addition to prospects the 1935 domestic wheat harvest will be in excess of home needs, it is probable decidedly less wheat will be fed to livestock the coming season, perhaps not more than 50,000,000 bushels. Last year approximately 100,000,000 bushels of wheat in this country went into use as livestock feed.

Wheat closed easy at the same as yesterday's finish to 3 1/2% lower, July 83 3/4%, corn unchanged to 1 1/4% higher, July 80 3/4%, oats 3/4% off to 3/4% up, and provisions varying from 2 cents decline to an equal gain.

Today's closing quotations: Wheat—June 83 3/4%; July 83 3/4%; September 84 3/4%; December 87 3/4%. Corn—July 80 3/4%; September 75 3/4%; December 64 3/4%. Oats—July 35 3/4%; September 33 3/4%; December 35 3/4%.

SILVERTON NURSE GETS APPOINTMENT

SILVERTON, June 5.—Miss Ruth Rue, daughter of Mr. and Mrs. O. R. Rue of Waldo Hills, was this afternoon elected superintendent of the Silvertown General hospital, and will assume the new duties Saturday. She has been on the nursing staff here for the past five years.

Miss Rue will succeed Mrs. Herbert Pitney, superintendent three years who resigned to take a much needed rest.

Upon Mrs. Pitney's resignation, Miss Edna Chrellan of Rochester, Minn., was elected to the superintendent's post before arriving here as she has to take some special work in anaesthesia, she will do this at once. Upon completion of this study, Miss Chrellan will be employed at the local hospital.

George Steinhilber is president of the hospital board.

Wall Street Speeds Up Pace

STOCK SALES RISE; UTILITIES BETTER

NEW YORK, June 5.—(AP)—Wall Street again gave signs today that it was pulling itself together, and giving itself a few tentative pats to make sure no vital bones had been broken when the NRA collapsed about it early last week.

On the whole the examination of a year of reassuring. Stocks changed hands at a more rapid pace, and moderately higher prices prevailed in most groups of equities during the major portion of the trading session.

Turnover in the stock exchange rose above the million-share marker, at 1,103,400 shares. The Associated Press average for 60 stocks rose 3 of a point to 42.3 and the 15 utility issues in the compilation for the second consecutive day advanced into new high territory for 1935, at 30.7, up 3 of a point.

News from the business front was relatively good, and tended to indicate that the disturbing effects of the passing of the codes had been less, so far, than had been feared in some quarters.

The utility shares got a boost from buoyant performance of the American Telephone, which rose 3 full points to a new 1935 high at 127 1/2. Two of its subsidiaries reported during trading hours good gains in phones connected last month, and after the closing the parent company revealed that for the Bell system stations had risen 760 during May.

Baking Group Busy

One of the busiest and most favored groups was the baking stocks, with National Biscuit up 2 points at 27 1/2, and Looney Wilkes led the parade with a lift of 1 1/2 points at 35 1/2. Continental, General and Purity came along with fair gains.

Some of the best gains of the day were in the specialty division. Coca Cola led with a gain of 8 points at 218, while others with advances of around 2 points or so included American Safety Razor, Bayuk Cigar, Melville Shoe, Fenick & Ford and Acme Steel.

Most of the pivotal issues continued advances to fractions, such as Westinghouse at 47 1/2, Consolidated Gas at 24 1/2, Pennsylvania at 21 1/2 and Standard Oil of N. J. at 49. Some registered small losses, as in Southern Pacific at 16 1/2, U. S. Steel at 32 1/2, Chrysler at 45 1/2, General Motors at 30 1/2 and Sears at 38 1/2.

Gardeners' and Ranchers' Mart

PORTLAND, Ore., June 5.—(AP)—Strawberries were the exception to a general lull today at the gardeners' and ranchers' mart. Demand lagged behind the heavy supplies, and quotations tended downward.

Most activity centered in strawberries with the prices sliding. Shipments were moderately heavy, coming from mid-Columbia areas, the upper Willamette and from local growers.

Gresham and Oregon City supplies were larger. Good Dollars and Red Hearts were seldom offered and Oregonians comprised the main supply with a few Marshalls on the market.

LATE ADVANCE IN BUTTER HOLDS UP

PORTLAND, Ore., June 5.—(AP)—Market for butter held at the recent advance in the price here insofar as the late session of the produce exchange was concerned. On the open market, values have been held steady for some days past despite the erratic trend on the exchange.

Butterfat values were steady with an increasing call for ice cream. Market for eggs was holding much the same as during recent days in the local trade. Outside markets were fractionally higher to lower in spots but nowhere was there any material change.

Prices continued to rule strong in the market for chickens with keen request for broilers from killers at full prices at least. In fact all chickens were firmly priced.

Some turkeys were moving to market but quality was not very good as a rule with resulting slow continued the cheapest fowl on the market.

Country killed meats were practically unchanged for the day.
