CCC QUOTA TO GO BEGGING, FORECAST

49 Jobs Still Open; Rigid Physical Test, Chances At Other Jobs Cause

Little prospect existed yesterday that Marion county's latest quota of CCC recruits could be filled by 8 o'clock tomorrow morning, when a truck from Camp Cascadia will be here to pick up a second group of applicants. Forty-nine CCC jobs remain open this week for men between 18 and 23 years of age in this county.

Lagging interest in CCC service, which pays \$30 a month, coupled with stricter physical requirements than previously was blamed yesterday by relief officials for the expected shortage of recruits. The situation was in distinct contrast to that of last summer, when CCC jobs were eagerly sought.

Eleven of the 41 young men sent to camp Saturday morning were rejected because they could not pass rigid physical examinations. The 31 who were accepted are:

Howard W. Ames, William W. Ashlock, Carl L. Donovan, Avril R. Harrison, Harold E. Haskins, O. Fry, Claud W. Gant, Theodore Edwin A. Hensel; Leo A. Schaefer, James S. Sjovangen, Harry A. Staples, Floyd L. Walker, Gerald M. Hershberger, Carl C. Johnson, Richard F. Jones, Victor K. Koenig, Carl H. Longacker, Junior M. McCulloch, Paul A. Manning, Eugene M. Mellis, Chester W. Montgomery, LaNol E. Myers, Max P. Osborne, Phillip H. Pennington, Lawrence J. Jozel, Roland J. Rhodes, Albert E. Robertson, Clarence L. Rund and Merl L. Williams.

Young men desiring to enroll with the CCC may apply today or between 6:30 and 8 a. m. tomorrow at the office of Glenn C. Niles, executive secretary of the Marion county relief committee, Niles said yesterday.

Few of Drivers Renew Licenses; Must by Monday

Only one-fourth of the automobile drivers in Oregon have obtained new operators' licenses or renewed their old ones, it was announced Monday by the state department. It was estimated there were about 360,000 operators in Oregon.

Under the law, only persons over 70 years of age, new drivers and those who have had suspensions or revocations, after the periods are up, are required to submit to examinations.

ALLOCATION, ROAD FUND SET TODAY

(Continued from page 1)
cost is large in comparison to the labor cost. It will utilize the direct relief funds and the grade crossing elimination moneys on projects where the labor percentage of cost is large. The total program for highway construction in the year 1935-1936, will be considerably larger than last year, although the program is slower in getting under way. Last year there was no so-called federal aid money, the \$3,000,000 received from the government being an outright grant. The highway department has under contract work which will use virtually all of the 1934-1935 federal money and the majority of these projects have either been finished or will be completed by late summer or early fall, with the exception of the coast bridges which were financed through a PWA loan and grant. The commission today will consider taking up its 4 per cent toll bridge bonds, issued in the amount of \$2,000,000 and replacing them with securities which are general obligations and will bear a rate of interest not exceeding three per cent. The 1935 legislature took the tolls off the coast bridges.
