Squirrels Free For All Comers Because They Dig up Plants

If you want a squirrel for your yard, or two for that matter, you may have one—free.

Frank Kluck, caretaker of Willson park, said yesterday that the squirrels, driven from the old capital grounds, have taken refuge in his park and have eaten a number of his plants.

The spring, too, has been favorable to the squirrel families, and the young ones are doing their share of damage. Occasionally a dog deplores the population, but in most of the cases the squirrel outruns the dog to a convenient tree.

Kluck will give clear title to the squirrels and welcome local citizens who will promise his wards a good home. There's only one difficulty.

Each citizen must catch his own squirrel.
