REPLY BRIEF FILED FOR SALARY DEFENSE

An early decision in the salary test case in circuit court here was expected yesterday following the filing of final briefs in the action which has already been argued before Judge L. G. Lewelling. Ed Jory, local taxpayer, brought the suit, alleging Governor Martin could not constitutionally draw more than \$1500 a year salary.

Ralph Moody, deputy attorney general, filed a reply brief for the state. In the brief, 26 pages in length, he cited a wealth of legal cases to sustain his oral argument that the suit to be brought properly would be an ex rel proceeding and one which a taxpayer could not raise except through the district attorney or attorney-general's office.

He then explored in detail the history of the constitutional provision that the government shall receive \$1500 annually and showed that legislatures had repeatedly interpreted that article as one which did not refer to a maximum salary for the governor.

Two Popular Visitors Entertained

Two of the most popular visitors in the capital city are Mrs. Paul Schmidt and Mrs. Fred Cornell of Los Angeles, formerly of Salem.

Last night the country home of Mr. and Mrs. John Brophy was opened for a no host dinner served on the terrace to 30 guests.

Yesterday afternoon Mrs. Douglas Minto and Mrs. Leo Page entertained with a tea from 3 to 5:30 o'clock at the Minto residence.

Mrs. John Minto was at the door and assisting hostesses were Mrs. Gordon McGilchrist, Mrs. David Adolph, Mrs. E. Hartley, Mrs. Robert E. Downing and Mrs. A. T. Wain.

Presiding at the urns during the afternoon were Mrs. George Riches, Mrs. D. W. Eyre, Mrs. James Lewis and Mrs. Percy Cupper. The tea table was attractive with a centerpiece of pink water lilies guarded by blue tapers in silver candelabra.

Those serving were Miss Helen and Miss Pauline Schmidt of Los Angeles, Mrs. Walter Welch and Mrs. Max Page.

California Guests in Salem

Dr. and Mrs. Leonard Keeler of Chicago, with Teddy Applegate of Walla Walla, and the Misses Williams of Palo Alto were visitors in the city Tuesday and Wednesday.

Dr. Keeler is assistant professor of law at Northwestern University. Mrs. Keeler is a handwriting expert at Northwestern university laboratory. She was Katherine Applegate, a niece of Miss Lillian and Miss Pearl Applegate of this city.

They have gone on to California to visit Dr. Keeler's father, Charles Keeler, author and playwright, of Berkeley.

The Eteri class of the First Baptist church will have a 6:30 o'clock club luncheon Friday at the home of Stanford Sparks, route 3.

TAXPAYERS HERE ENJOY LOW RATES

Salem taxpayers enjoy the lowest tax rate of any city of 5000 population or more in Oregon except Corvallis or Pendleton according to a compilation of property tax levies just released by the League of Oregon Cities.

Salem total tax millage was 61.3 on assessed value which the league estimates was 21% of true value, a considerable lower ratio than prevailed in other cities.

The average millage tax levied on city property in the state totaled 62 mills this year, the league reports, reducing the valuation basis to 50 per cent of the estimated real value of property.

On this basis direct taxes for the cost of government or city-owned property cost \$3.10 this year for each \$100 of real value.

The tax for city purposes ran highest in the aggregate of real property taxes paid by residents of Salem. This levy was 20.8 mills or 41 per cent of the total tax collected. School taxes took 30 per cent of the tax levied, while county taxes including the county school fund tax cost only 19 per cent and state taxes only 10 per cent of the total levy.

The town of Warrenton, Clatsop county, had by far the highest millage in the state, taxpayers in that area paying 118 mills for their combined state, county, school, city and dike district levies.

Depositors Get Full Repayment

Every depositor in the Chiloquin state bank, in liquidation since February, 1932, was fully paid yesterday when A. A. Schramm, state bank superintendent, placed checks in the mail completing 100 per cent repayment of commercial department claims. Savings department claims were paid in full last fall. Secured claims of \$29,000 and preferred claims of \$3415 had been paid in advance of payments to the other creditors.

The department earned \$5000 above liquidation costs from interest on the bank's assets during the liquidation. Remaining assets go to the bank's stockholders.

New Salem Club To Get Charter

The Salem 20-30 club will elect new officers at its dinner meeting at the Quella tonight. Nominees are, president, Phil Huth and Pat Patterson; vice president, Russ Woody; and Glen Mathis; sergeant-at-arms, Bob Kitchen and Francis Ernest; directors, Frank Ernest, Glenn Nash, Ralph Mapee, Joe Young, Al Priesen, Kenneth Lee, Vern Mathis and Bob McFarland.

EVOLUTION THEORY GIVEN HARD WALLOP

A crowded audience at the First Christian church last night listened to Dr. Arthur I. Brown, surgeon and bible lecturer of British Columbia, present a refutation of evolution, an idea he declared has been abandoned and ridiculed by outstanding scientists who until a few years ago were embracing it. Brown will give the last sermon in his series tonight.

Dr. Brown presented the comparative anatomy and embryonic arguments set up to prove evolution, then tore them down to prove his earlier statement that evolution is false in the light of science. Similarity in structure is no proof of blood relationship he said in his discussion of the anatomical argument.

As a physician, he ridiculed the idea set up in support of evolution that the human embryo in its early stages has a tail which is discarded before birth, and declared he himself once had opportunity to observe a six-weeks human embryo, showing bone for bone spinal vertebrae as the adult.

In spite of the turn of many scientists against evolution, the comparative anatomy argument is used consistently in textbooks over the country, Dr. Brown declared.

Textbooks used in Salem and schools and elsewhere cling to the embryonic arguments, including the idea of a gill arch in the side of the neck. Brown declared, despite the fact that Ernst Haeckel's diagrams were exposed as a fraud in 1907.

Liquor Provides Marion County Relief Moneys

Marion county's direct receipts from relief funds appropriated by the legislature had totaled \$154,000 by the end of June 30 according to a compilation announced yesterday. The state's total expenditures for relief, distributed entirely through the county committee, aggregated \$2,454,000 at that time, according to the secretary of state's office.

Of the state's outlay, \$1,404,000 came from profits and taxes on the sale of liquor. An additional \$1,050,000 came from revenue receipts sold in advance of collection of liquor profits, the moneys received going to the counties.

The 1935 second special session of the legislature and the 1935 legislature, regular session, authorized aggregate relief expenditures by the state of \$5,500,000 and blocked off liquor

receipts to this amount for paying the relief costs.

ROAD IS PASSABLE
With the exception of a one and one-half mile rough stretch, the 14-mile section of the North Santiam highway which is under detour is passable without difficulty, J. F. Dewley at Detroit notified the county court yesterday. The short strip because of its high center, particularly forces late model automobiles to drive slowly.
