

JACK NELSON GIVEN AWARD

For Honor Camper at Y. M. Summer Outing-Near Oceanside

Y. M. C. A. CAMP, Oceanside, July 24.—The Older Boys came Tuesday morning and the younger ones left for Salem. The first camp closed officially Monday night at the campfire service in a literal blaze of glory. Each camper's candle was placed on the fire upon entrance into the council circle, and as the fire came up the candles melted into one mass of flame.

Each tribe had a smaller fire which was lighted from the central fire. These fires represented the four points of "Y" work—Spirit, Mind, Body and Service. Each supplied a radiance to the circle of fellowship of camp life, but as they died down the central fire remained warming the hearts of all. It was a great service and one long to be remembered.

Jack Nelson Honored
The honor camper this year elected by the ballots of the boys was Jack Nelson. He received his banner at the closing campfire service.

Other awards for the camp were in the Ragers' society. The first ragger award is green. It signifies that the boy has made good progress in camp life and is reliable in doing the camp duties. Those receiving this award for this camp were: Ed Mything, Burson Ireland, Fred Grover, Malcolm McCallum, Dale Bates, Ray Pace, Wayne Williams, Ralph Yocum and Bob Larky.

The brown ragger is a three-year camper and Bill Nelson was given this award. A red ragger is a four-year camper and Austin Wilson got this award. Others will receive their awards in the second camp which started Tuesday morning.

Sam Ames at 80 Retains Business Routine Set in Silverton in Early '80s

SILVERTON, July 24.—Silverton's "first" business man celebrated his birthday anniversary Wednesday. That is he is first businessman from point of active years in business at Silverton. Sam Ames was 80 years old. But that is in count of years only. In activity Mr. Ames is much younger. Over 50 years ago, Mr. Ames started in the hardware business at Silverton. Today he is still in the hardware business here and each morning shows up at the usual hour to assort and open his mail and attend to other business details of the business. The Ames hardware was one of the first at Silverton.

There are many of Silverton's firsts connected with the Ames name, and Mr. Ames' "story of my life" would be a history of Silverton for the past 60 years. Mr. Ames was born in Ohio but came to Silverton when he was little over 20. At once he became active, but quietly so, in the business sphere of the pioneer town.

Was "Hand" Fireman
Mr. Ames was among Silverton's first firemen and still remembers with pleasure the days the city fire equipment was drawn about by hand much after the manner of an oriental rickshaw.

The Ames' gardens are widely known for their beauty today. Early in the game, Mr. Ames disliked seeing his garden dry up during the summer, so he and his brother, Lou, now living at Fullerton, Calif., started a water system here. That was over 40 years ago. The city now owns the system. One of the first planing mills in this part of the country, and the first at Silverton, was started by the two Ames men. That is now known as the Hubbs' Planing mill.

Famed for Walnuts
Long ago Mr. Ames became interested in walnut growing. His grove was one of the first in the Silverton country. It is still one of the finest. A few years ago, the Ames grove attracted the attention of walnut experts at Oregon State college. For some time Mr. Ames had been carrying on experiments against walnut blight. His experiments proved more successful than those at the college. And now Mr. Ames is carrying on some experiments for the college. Cards tacked on the trees in the Ames walnut grove show what is going on there. Once or twice a week during the growing season, Mr. Ames makes the six-mile round trip to the grove on foot.

WISCONSIN PEOPLE BUY VAN DORN FARM

DAYTON, July 24.—A deal has been made whereby George and Frank Eckman of Wisconsin became the owners of the D. C. Van Dorn 30-acre farm two miles southwest of Dayton. Mr. Van Dorn purchased the farm in 1893 and it has been his home almost continuously since. He will make a short business trip to California and return to Dayton to make his home.

Possession has been taken by the new owners and residing with them are their mother and sister, Miss Linda Eckman. Van Dorn, 80, gained the front page in March, 1934, when he re-married his divorced wife whom he had married in the east in 1871, and in 1877 divorced. Both married and raised families and lost their companions by death in recent years. Van Dorn last March lost by death also the aged bride of but one year.

Leviathan May Sail Pacific for China

The Leviathan, the naturalized German ship that once was the queen of the American Shipping Marine, soon may emerge from her watery graveyard and browse around in foreign waters—quite once more. According to reliable reports in eastern shipping circles, the new adventure will take

her into the Pacific ocean, flying the flag of China. The report has it that she soon will become the flagship of a Chinese merchant fleet. The giant ship, built in 1914 in Germany, was awarded to the United States by the Versailles treaty following the World war.

FISHING TRIP ENDS WITH BROKEN ARM

WOODBURN, July 24.—Mr. and Mrs. A. C. Parmeter of Reno, Nevada, who have been visiting at the home of Mrs. Parmeter's parents, Mr. and Mrs. E. J. Wilson, left Sunday for their home accompanied by her aunt, Miss Carrie Waterbury who will visit with them for a week or 10 days.

Carl Peterson, rural mail carrier of Woodburn, fell from a tree while on a weekend camping and fishing trip, breaking both bones of his right arm just above the wrist. The Peterson family accompanied by Mr. and Mrs. Howard Sayre were camping on the Santiam and while fishing Peterson's line caught in the limbs of a tree. While trying to untangle it the limb onto which he had climbed broke pitching him to the ground. He was taken to the Stayton hospital where the arm was treated and put in a cast, and Monday was taken to the home of his parents near Turner. It will probably be some time before he will be able to take care of his mail route.
