Five Dollar Bill Travels by Mails in Perfect Safety

SCOTTS MILLS, July 27.—The mail man was surprised, the postmaster was surprised, and Eric Larson, manager of the Marquam Mutual Telephone company at Marquam was also surprised, when he received a five-dollar bill with a tag attached with his address and return address of the sender. Local postoffice employees say as far as they know it has never been done before. It merely shows the confidence the patrons have in the mail carrier, postoffice and Uncle Sam.

The Royal Neighbor club held its annual picnic at the Scotts Mills park Friday. A picnic dinner and ice cream were served at noon, after which the business meeting was held. The club will meet at the home of Mrs. Pauline Swartout the first Friday in October.

Hadley, chairman of program committee; Mrs. I. Frost, Al Dale and W. P. Shutt, members of the advisory board; Mrs. Vina Loefer, reading clerk. Properly Stowed Bags Add to Comfort

Comfort, pleasure, and safety on a tour depend largely on efficient loading of the luggage, and modern body designs have done much to ease the problem, as these views of Chevrolet models reveal. In the upper left view, the suitcases have been fitted in snugly, the adjustable front seat having been moved forward to allow extra leeway, and the driver is now pushing back the seat to clamp the bags in place for the day. Upper right, the tourist is utilizing the baggage space back of the rear seat. The two lower pictures show the loading of a coupe compartment and a sedan trunk. Douglas McKay Chevrolet company is the local agent.

DODGE FLEET DOES WELL, CONGO TRIP

The joint expedition, headed by Lella Roosevelt and her husband, Armand Denis, which embarked for Europe late in January and, after being sped on their way by the king and queen of the Belgians, proceeded toward the Belgian Congo, are recording progress punctuated with transportation difficulties so far successfully overcome by the fleet of Dodge trucks on the lead of the caravan depend on the success of their quest.

This information came to E. E. Owens of the Herral-Owens company, Dodge-Plymouth dealers at 235 South Commercial street, in a dispatch from the Dodge factory at Detroit.

The reports come in the form of letters written by Armand Denis, sent via donkey trail, airplane and runner routes. The latest message was dispatched from Adrar, a French military outpost on the fringe of the Sahara desert.

The Roosevelt-Denis expedition consists of two co-ordinated parties, one led by the intrepid American woman explorer, Lella Roosevelt, relative of both President and Mrs. Franklin Delano Roosevelt; the other captained by Armand Denis, who filmed "G. O. A. G. O. A. G." with Andre Roosevelt in Bali and later distinguished himself as production manager of Frank Buck's famous "Wild Cargo."

BLOWOUT OF REAR TIRE HOLDS PERIL

It is generally accepted belief that it is better to run old tires on the rear wheels of a car than on the front because a rear tire blowout is supposedly less dangerous, but this is not true, according to Walter Zosel, manager of the Goodrich Silvertown stores at 198 South Commercial street.

"This is surely a fallacy and one that undoubtedly causes many accidents annually," Mr. Zosel declared.

"Thousands of road and laboratory tests have demonstrated beyond doubt that a blowout of a rear tire is every bit as dangerous as a front tire blowout, and under certain conditions even more so.

"If the pavement happens to be slippery when a rear tire blows and the other back tire is worn smooth a blowout is apt to be far more serious for it is the rear end of the car that skids most readily at any time."
