Bits for Breakfast

(Continued from page 4) and one on the North Umpqua. Turner, Woodworth and Dr. W. J. Bailey reached the Jason Lee mission, in a famishing condition. Gay kept along the foothills on the west side; crossed the Rickrail about where Dallas is now, the Yamhill at the falls near Lafayette, traversed the Tualatin plains, and reached Wye's trading post on Sauvie's island some time in August — most of the way almost naked, having cut up his buckskin breeches to make moccasins for his companions. Mosquitoes nearly devoured him in the Columbia bottoms. The perilous trip of nearly 600 miles was a terrible test of the endurance of a naked, wounded, starving man. Dr. Bailey married Margaret J. Smith of the Jason Lee mission; they had their farm near what became Butteville — he was for a generation the principal physician in that part of Oregon; carried an ugly scar between mouth and chin throughout the rest of his life, from the frightful wound, that never fully healed." (Continued on Tuesday.)

TRANSIENTS HURRY HOME, SEEK WORK

WPA Employment Offered Only in Counties of Legal Residence

Prospect of securing employment under the WPA program is leading hundreds of transient men to start homeward, according to R. R. "Bob" Boardman, supervisor of Hotel de Minto, federal transient relief station which will be closed Thursday morning. Notices have been posted at all transient relief stations advising these men that to secure WPA jobs they must apply in the county of their legal residence. Comparatively few men are seeking the accommodations of the transient station here now, Boardman said yesterday. During the last month 85 men who stopped at Hotel de Minto were sent to the federal transient camp near Gates on the Santiam river, the largest number ever recorded in a single month. Men from this camp will continue the cultivation of the Hotel de Minto garden located north of the Salem municipal auto camp and in West Salem, Boardman said. Boardman will spend several days beginning Thursday completing his records and reports on the activities of Hotel de Minto and then expects to find other employment. He has not yet decided what sort of work he will take up. The last meal at the Hotel de Minto will be served Thursday morning.

Romance and Business do mix. The experiences of Rev. H. W. White of Rt. 1, Jefferson proves it despite the general belief to the contrary.

Left with five small motherless children in Grassy Creek, Missouri, he was forced, either to find a mother, or play the part himself. A brother minister convinced him that he could not do the latter and suggests that Lizzie Weir, way down in Arkansas would be the answer to the problem.

Mr. White, after some deliberation, took up pen and scroll and sent a brief of his condition to Miss Weir. The reply was likewise strictly business but encouraging. The young lady stated that she would be within 30 miles of Grassy Creek in the next few weeks.

No Misrepresenting When the day arrived for the meeting, young Henry first borrowed a horse and buggy and don't say but just as he was ready to start, it came to him that he was misrepresenting his case. So he returned to the horse and buggy to take the old team and wagon, loaded with the family. "She must see the worst first," thought the conscientious young minister. "Then if she accepts, the future will be easier."

That is how Mr. and Mrs. H. W. White of Jefferson came together and for going on one-half century, they have made a good of it, raising a family of nine children, spreading the gospel, and farming 213 acres of land.
