to the league council, which would meet again September 4.

Italy immediately objected. Baron Pompeo Aloisi, heading the Italian delegation, presented those objections to Laval. The French premier immediately got his good friend, Mussolini, on the telephone.

It was of no avail. Il Duce stood firm. He did not want, he explained, the clause involving pledges against war. He did not like the linking of peace efforts to the league council, nor did he fancy having Italians sit down at the council table with Ethiopians as equals. The latter on the grounds that Ethiopia did not sign the 1906 treaty.

Notwithstanding Mussolini's attitude, league circles this evening were hopeful some compromise could be worked out.

Ruby Grapes

Select Thompson seedless grapes which are firm and green in appearance, remove from stems and wash. Pack into clean jars, fill each jar to within 1 1/2 inches of the top. Cover with a syrup made in proportion of one cup of sugar to three cups of water.

For the ruby grapes, color the syrup with red vegetable coloring, making it a rich deep red. The syrup may be flavored to taste with almond or cinnamon flavoring if desired. For the emerald grapes, color the syrup a deep green and flavor with mint extract or peppermint flavoring. Adjust covers and process in oven at 250 degrees, 45 minutes for pints and 35 minutes for half-pints, the cold pack method may be used also. The half-pints are better in most cases, as this fruit is used for garnishing salads and

desserts and only a small amount will be used at one time.
