Typical Grocery Victory is Turned in 7-1 by Rally Aided by Bobbles

### Second Game Wednesday is Awaited by Fans; May Pick City Champ

By PAUL HAUSER Doing all the scoring in one inning the Pade state championship nine swept over Kay's 7 to 1 last night to take the first game of the two out of three city cham-

pionship series. The story was the same as in many other Pade victories, one of Pade hits bunched with the opposing team's misplays in one oversized inning.

All Runs Scored In Fourth Stanza

In this case it was the fourth, when with four hits, a walk and four errors, seven runs crossed the plate. Kitchen's line drive down third at the opening of the game had been the only Pade hit before and there were none afterward.

Kitchen put his second hit of the game down the third base line to open the fourth and Foreman was credited with a hit when Mickenham was a little too slow fielding his bunt. Scales walked to populate the sacks and then the fun-began,

Bone sent a grounder spinning to Bill Moye who rushed in on it and bobbled it. Kitchen scored but Move retrieved the ball and whipped it home in time to catch Foreman at the plate.

Then Hill hit in almost the same place and Moye erred in the same way, letting Scales come home. A wild pitch advanced Bone and Hill and they both scored when Moye went back to get Olinger's fly and dropped it. Adolph singled to right field to score Olinger, Schouelle essed up a pop fly that lit safe and Pickens overthrew third to allow Adolph to score. Gilmore batted in Schnuelle to end the slaughter. ### Architects Make Progress on New Willamette Plan

A. E. Doyle and Associates. Portland architects retained by a trustees' committee of Willamette university, to outline estimated costs of structures needed on a new campus should Willamette sell its present holdings to the state, were able last night to report progress but no completion of their task. The firm has been working steadily on the project for the last week. When outlined costs are available the university committee headed by Amedee Smith, president of the Willamette board, will be called together to discuss the price Willamette will set on its property in the light of the costs of replacing the present buildings.
