Any Salem resident who visits Washington, D. Pattern 238

By ANNE ADAMS
If she's old enough to wear 'em and like 'em, she's old enough to make her own. Do you agree? They're really very easy to make, and involve only the simplest dressmaking tricks. The cute, shirtwaist-type blouse tucked a lot of style into bell-bottom trousers, which are joined to a small yoke at the waist in front. An elastic through the back makes them hug the waistline. A dainty flowered neckerchief, a few yards of inexpensive crepe, or flannel, for later in the season, will make as attractive a pair of pajamas as this Junior's ever owned, and she'll be so proud of her first triumph she'll be making her own frocks soon.

Pattern 2384 is available in sizes 6, 8, 10, 12, 14 and 16. Size 10 takes 3 1/2 yards 36 inch fabric. Illustrated step-by-step sewing instructions included.

Who buys your shirts and socks?

MORE than 80% of all men's shirts, stockings, underwear, neckties and handkerchiefs are purchased by women. Why? Men prefer to have their wives and mothers do the shopping because they realize that women are better shoppers — that they have a sixth sense for qualities and values.

How do women keep themselves informed? They have formed the habit of reading the advertisements in the newspapers. And they read them regularly, whether they want to buy anything or not. Then they know exactly where to go to purchase what they need, and they know to a penny just what they will have to pay.

From the advertisements anyone can learn where to buy better clothes, better foods, better household goods, better EVERYTHING. Read them carefully. They have news and suggestions for you!
