

ENROLLMENT GAIN IS ANTICIPATED

Register New Pupils at Silvertown; Teachers Attend Summer School

SILVERTON, Sept. 11.—Plans are being completed this week for the opening of city schools next Monday morning. Indications are that the enrollment will be larger than a year ago. Robert Goetz, superintendent of Silvertown schools, who has spent the summer at University of Washington at Seattle, is at his office each day. He announces that all children who will be six years of age by the first of November must be registered before the opening day. All beginners must start school on the first day.

Herman Kramer, principal of the senior high school, believes enrollment will reach 400 in comparison to 364 of last year. He asks that all students new to the Silvertown high school register at his office before the opening date of school. Mr. Kramer can be found at his office from 9 to 12 and 1 to 4 each day. All students who are picking hops and who will register before the opening date, will be given an excuse if they bring a note from the manager of the hop yard saying they have been working during the school session.

Harold Davis, who replaces F.

J. Roubal, as principal of the Junior high school, has returned from a summer spent in Washington, and is at his office in the Washington Irving building.

Among the new teachers in the schools this year are Dorothy Atwood, who replaces the former Miss Estora Ricks in the home economics department; Stephen Butler, who replaces Calvin Storey in the music division; Richard Pickell who will teach English in the Junior high school; Roy Mueller who will teach science and coach basketball, and Harriet Ann Smith.

Red Spiders Imperil Hop Crop, Valley

BRUSH CREEK, Sept. 11.—While red spider is not as bad in this locality as in many others, the continued hot weather has been fostering its increase so that some hop yards are being threatened seriously with it. However, most yards are being picked.

John Moe, president of the Silvertown hop association, reports that a few small lots of early fuggies have been sold at 15 cents and that a few late hops were contracted recently at 8 cents. However, buyers are in the community, Moe said, offering 9 and 10 cents for late hops. Moe is one of the outstanding hop growers of not only this district but the entire Silvertown hop community.

... when Oregon was still a pioneer state and Portland only a village ... a national banking charter was granted for the first national bank in the Northwest. Taking its name from the charter it was called THE FIRST NATIONAL BANK OF PORTLAND, and opened on the second floor of the town's principal business building.

Today that pioneer bank has grown to an institution with resources of more than \$65,000,000 with branches in nearly every part of the state.

Banking service, that pioneer settlers drove or rode all the way to Portland to secure in the '60s, today is available to you right in your own community at our
