FAMED COMEDIAN PAUSES IN SALEM
 By D. H. T.
 With no intention whatsoever of deliberately creating a coincidence, Oliver Hardy dropped into Salem on the eve of the showing of "Bonnie Scotland," the full-length feature which Mr. Hardy, in association with his team partner, Stanley Laurel, has made.
 A reporter, Statesman, accompanied by "Chuck" Bier of local Warner Bros. interests, found the comedian in a local cafe eating a dinner in company with two beautiful young women and a young man, the other members of the party which for several weeks has been enjoying a vacation from Hollywood. They have been in the Sound region of Washington, and are now in southern Oregon, fishing the streams in the vicinity of Medford. At any rate they departed with that avowed purpose immediately after dinner last night.
 "This is a wonderful country you have here," said Mr. Hardy. "You will note that I have acquired a real technicolor complexion."
 This was noted. Also was noted the fact that the man who has perhaps made more people laugh—in collusion with Mr. Laurel—than any other comedian now on the screen is of a modest, almost shy disposition, with a smile that is positively attractive. Attention is made of this, because a general impression exists among followers of the moving pictures that his countenance is set only and always in an expression of comic stolidity.
 There was not time for any of the questions usually asked visiting celebrities when they happen into town and fail to escape before the minions of the press search them out. But on being Mr. Hardy did say, and he said it with a hearty handshake,—"It has been a privilege to meet you boys."
 And that was rather nice of him, even though he is a comedian, whose business it is to think of funny things to say.

Insurance Case Involving Plan Opens in Court

The case of the General Insurance company against the state insurance commissioner, involving the validity of a so-called participating policy which returned dividends to holders, opened in circuit court here yesterday.
 Insurance department officials held that the policy holders were not stockholders and could not receive dividends in the nature of a rebate.
 A decision in the case was expected to determine definitely whether or not a participating policy is illegal.

Expect Receipts Of Income Taxes To Beat Estimate

Receipts from personal income, corporation excise and intangible taxes for the year 1935, based on incomes for 1934, will aggregate in excess of \$2,500,000 as against an estimate of \$1,900,000, the state tax commission reported yesterday.
 The second half of these taxes, due October 1, will exceed \$750,000. Taxes are being received at the rate of \$20,000 daily. First half payments were due April 1.
 The tax commissioners said that while many of their records were destroyed in the capitol fire, all ledgers and much other financial data were saved.
 Duplicate returns have been made by many taxpayers.
