

ACTION BY F. R. ASSURES GRANT

\$3,500,000 Project Favored Despite Differences of Relief Officials

(Continued from Page 1)

ity." The governor and other state officials were attending the Pendleton roundup when informed of the developments at Hyde Park.

Oregon's original application was sent in several weeks ago, and after having been passed by the public works administration was rejected by the WPA on the grounds that the man-cost was too high due to necessary materials.

A new application, which state officials believed met the WPA objections, was forwarded by airmail earlier this week. Deadline for filing applications at Washington was yesterday.

Until the \$750,000 application has been acted upon the forthcoming special session of the legislature will not be called. Inasmuch as Senator McNary and Governor Martin have individually been assured by President Roosevelt that Washington would cooperate to the full in Oregon's capitol program, it was considered likely last night that the site application would be promptly acted upon.

Will Call Selves

When PWA Approves

Governor Martin indicated before his departure for eastern Oregon this week that he would convene the legislature shortly after he received word from PWA that the applications for site and for the building had been approved.

The \$750,000 additional application was decided upon here Monday when Governor Martin, Willamette university trustees and officials of the City of Salem, reached an agreement calling for purchase of the Willamette university campus and buildings for \$750,000. Of this sum PWA was requested to furnish 45 per cent. The City of Salem has volunteered to furnish 50,000 with the remainder furnished by the state. A new site for Willamette is also to be furnished by the City of Salem in Bush's pasture here. The entire transaction is dependent upon federal approval and favorable action by the legislature.

The session will be held in the state armory and a part of the Marion hotel, at a rental cost of \$55.50 a day. The armory rental is \$13.50 per day, exclusive of heat, while the hotel rental is \$40 a day. Additional rooms in the hotel may be obtained at a flat \$3 a day.

Officials said the senate would be assigned to the old dining room in the hotel while the house members will have their headquarters in the armory. Approximately half of the lower floor of the hotel will be used by the legislature.

ROOSEVELT DECIDES ICKES-HOPKINS ROW

(Continued from Page 1)

"I am satisfied," said Ickes upon his arrival at the executive office tonight in Poughkeepsie. Hopkins remained for a chat with the president who has indicated favor for quick action and therefore, temporary jobs.

None of the group including the third member of the works relief triumvirate, Frank C. Walker and Rexford C. Tugwell, administrator of rural resettlement, would discuss details of the meeting. Marvin H. McIntyre, a secretary to the president stated:

"The meeting went into every phase of works relief—facts and figures. No conclusions were reached. Secretary Ickes, Frank Walker and possibly Harry Hopkins will have another meeting tomorrow."

There was very serious talk and President Roosevelt apparently was participating again in the role of conciliator.

There is \$1,250,000,000 still to be allocated from the four billion dollar fund. Ickes is insisting upon public works, Hopkins believes these too costly for materials to provide the wages for the

which burned in one hour and 15 minutes" and to be now housing 1600 students "when intended for only 1200."

Claims Two Buildings Obsolete and Unfit

The bulletin avers the Lincoln and Park school buildings to have become "obsolete and unfit for modern teaching several years ago." The board proposes to replace them with a single new building "giving every facility for present-day teaching."

"Proposed addition to Leslie junior high school completes half finished building started in 1928 and now crowded beyond capacity," the information sheet concludes.

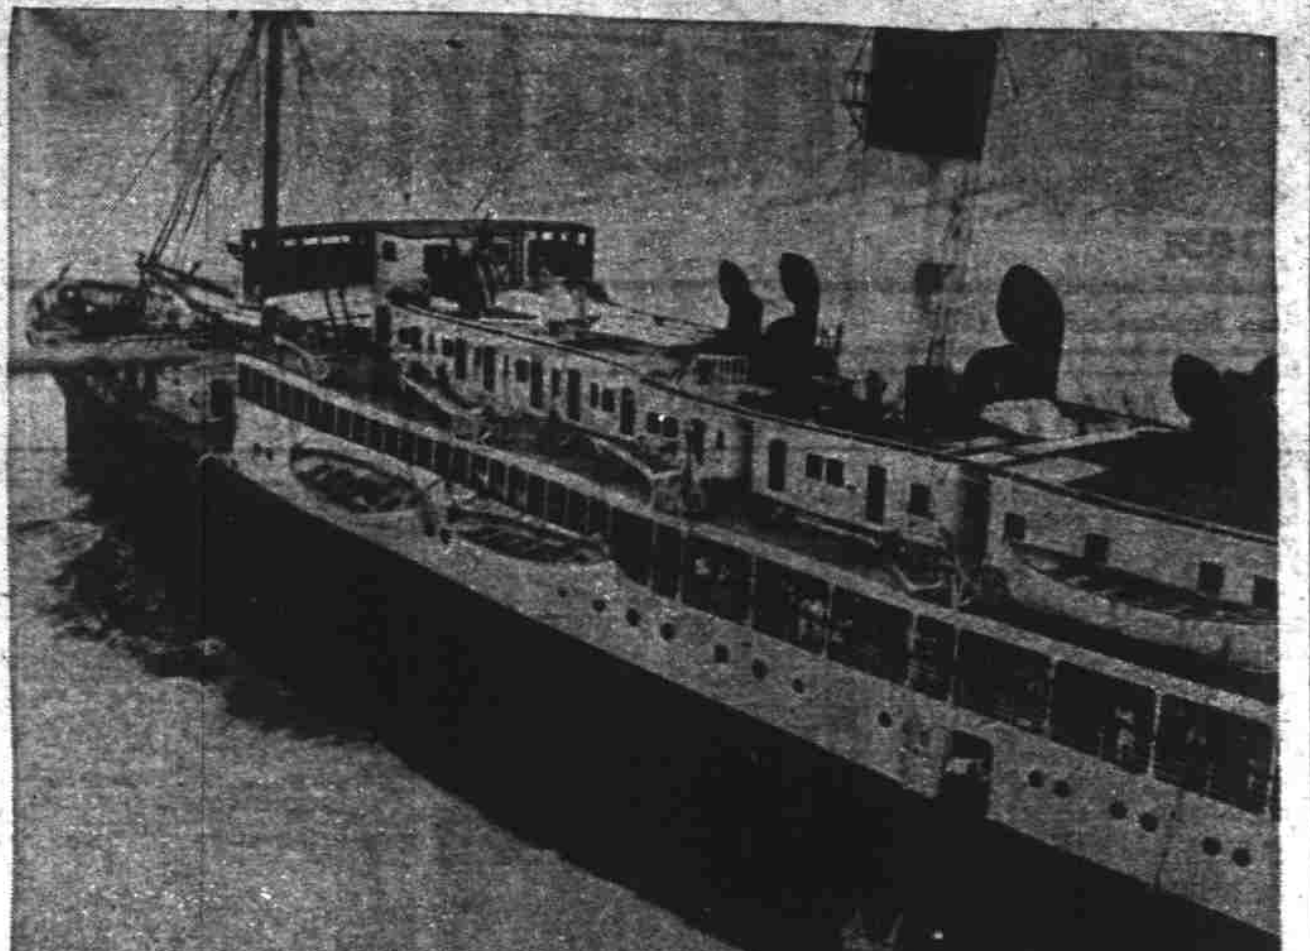

Chairman Walter B. Minor of the school board presided over the meeting.

Passengers Taken From Stranded Liner Dixie

Held fast on a coral reef at Caryport Light, off the coast of Florida, and lashed by waves and wind-driven rains, the liner Dixie was pictured while rescuers waited for heavy seas to abate sufficiently to lower small boats. Passengers on the stricken liner are seen lining rails, and life boats in position for lowering may also be seen in the center of the picture. A short while after this photo was taken rescue ships hovered close enough to remove anxious passengers to safety, although the captain of the Dixie said the ship was then in no immediate danger. All aboard were saved.—International Illustrated News Photo.

3,500,000 persons to be put to work from relief rolls.

The president has declared most definitely that all the works relief effort must be guided by business pick-up. He did emphasize today that whenever men on public work can be returned to private industry, this must be done even though the public undertakings must be stopped.

MOST OF SCHOOLS TO START MONDAY

More than half of the 119 schools in Marion county will be opened next Monday, Mrs. Mary L. Fulkerson, county superintendent of schools, reported yesterday. The remaining schools of the county, barring district number 115 which opened September 3, the two districts which opened school this week, and one district which will open school early in October when the carpenter work on the schoolhouse is finished, will, the superintendent declared, open September 23.

No teachers have yet registered from 25 of the 119 districts in the county, according to the superintendent, and only 105 teachers out of the 131 reported hired in the schools of Salem have registered. Mrs. Fulkerson warns that any teacher who takes over her duties without registering at the office of the county superintendent of schools is subject to the penalty of a loss of her salary from the time that she begins work until such time as she does register.

Fruitland, the superintendent declared, has a new elementary school building and Gervais, district number 1, has a new union high school building. One room has been added at Hayesville for primary grades.

Deputies Ousted After Fatal Gun Play at Capitol

MEXICO CITY, Sept. 12.—(AP)—Seventeen deputies of the minority bloc of the Mexican chamber were ordered removed from their seats tonight as a result of last night's gunplay on the floor of the chamber in which two deputies were killed and two wounded.

The order for their removal was signed by 92 members of the left-wing, or majority, bloc who charged that the minority deputies conspired to overthrow President Lazaro Cardenas during his political fight with ex-President Plutarco Elias Calles last June and that they plotted last night's shooting to create trouble for the president.

TWO PROJECTS ARE ENDORSED BY LIONS

After hearing the discussions of the school bond issue by Don Upjohn and the state capitol site by Mayor V. E. Kuhn, the Salem Lions club, at its regular meeting yesterday noon, unanimously endorsed both projects.

Upjohn, discussing the proposal to bond the school district for \$650,000 with which to match the federal gift of \$270,000, dwelt upon the possibilities of a serious fire in the present high school structure which, he contended, is a fire trap when crowded.

34 LOSE LICENSES AS DRUNK DRIVERS

There were 37 revocations and 10 suspensions of motor vehicle drivers licenses in Oregon during August, Secretary of State Snell reported Thursday. Thirty-four of the revocations resulted from driving cars while under the influence of liquor.

Seven licenses were suspended for reckless driving and one for speeding.

In 25 cases the drivers whose licenses were revoked or suspended were not equipped with proper driving permits. Thirteen of the drivers had not renewed their driving licenses while eight others involved persons who were never licensed in Oregon.

Four were non-residents whose right to operate motor vehicles in Oregon previously were revoked.

There were 541 convictions reported by the courts during August.

BILL PROPOSES TO ABOLISH PRIMARY

General Election Yearly is Substitute Suggested in New Amendment

Regular general elections would be held in November of each year and primary elections would be abolished, under a proposed constitutional amendment filed in the state department Thursday.

The preliminary petition was signed by W. F. Wagnon, who gave his address as the Chamberlain hotel, Portland.

Officials said this probably was the most drastic constitutional amendment filed in the state department in recent years.

Other outstanding provisions of the proposed amendment are: The question of recalling state officers shall be submitted to the voters each two years.

Recalling of district, county and city officers shall be submitted each year.

Candidates for possible vacancies resulting from recall shall file prior to each election and their names shall appear on the ballot.

Assume Office Soon

In case of recall, the candidate receiving the highest vote for such office shall be declared elected.

Candidates elected to fill vacancies shall assume office 30 days following the election.

Tenure of all state offices shall be extended to six years and other offices to four years.

Delegates to national conventions and national committees shall be chosen at the general election, preceding presidential year.

The petition was referred to Attorney General Van Winkle who will prepare the ballot title.

In case sufficient signatures are obtained, the proposed amendment will go on the ballot at the next general election.

Open Gift Shop

The most bewitching gift shop that has opened its doors in Salem for a long time is the newly-located Treasure Chest at 230 N. Liberty street.

Mrs. Peggy Mayo, operator of the shop in its former location at 1325 State street, and Miss Effie Smith who handles carved camphor chests, carved tables and India prints, are the proprietors. Alfred Mayo also does wood carving and picture framing.

The long room appointed with modernistic fixtures is lined with shelves in black and silver which are filled with exquisite glassware, sets of dishes, vases and art treasures. Bridge tables complete with gay linen or lace cloths and some with matching covers and dishes are set in the center aisle. Cabinets with Treasure Chest coffee and tea are in the rear of the shop. Rare spices may also be procured here.

India prints are used for drapes throughout the shop and the balcony is devoted to linens, carved chests and nested tables. A few items that caught the eye... the matched centerpiece bowls and ornaments on either side... the plaid china bridge set with matching cloth and napkins... carved silhouettes.

Egg Plant Sausages

Slice and pare 1 large or 2 small egg plants, cut slices in small pieces and cook in boiling salted water until tender. Turn into a strainer or colander and let drain until cool. Put into a mixing bowl and mash thoroughly. Then add:

- 1 egg, slightly beaten
- 1 medium onion minced fine
- 1/2 teaspoon poultry seasoning
- Salt and pepper

Sift enough flour to bind the mixture into a batter stiff enough to form fritters when dropped from a tablespoon. Fry in a small amount of hot fat. Bacon drippings are good, turning to brown on both sides. The flavor is very "sausage-like."

INJUNCTION ASKED IN SCHOOL STRIKE

PORTLAND, Ore., Sept. 12.—(AP)—Portland's school "strike" was one step nearer a showdown tonight as a result of a suit filed today in circuit court asking for an injunction against a closure ordered issued as an economy measure by the school board.

The suit was filed by attorneys for patrons of four suburban grade institutions, previously attended by approximately 2 per cent of the city's 30,000 grade school children. A considerable number of the pupils are still "attending" the schools, frolicing in the yards and holding impromptu classes on verandas.

Parents have protested the closure order and have declined to allow their children to board buses provided as transportation to other institutions.

The court today ordered the school board to show cause why the injunction sought should not be issued.

from Cab to Caboose they Satisfy

The man who holds the throttle—the flagman who "gives 'em the red rag"—people all over the country enjoy Chesterfields.

One reason is Chesterfields are milder—mildness that smokers like.

Another reason is they taste better—a pleasing taste and flavor that smokers like.

From cab to caboose... from Main Street to Broadway... they get an O. K.
