Dr. Britton Ross Tells of Travel

Stays at Jerusalem Y. and Reports Holy Land Changed

An interesting travel letter from Dr. Britton Ross, pastor of the First Baptist church, who has been touring in Europe and the Holy Land has been received by a member of The Statesman staff. This was written from Jerusalem August 12, and is as follows:

"I am sure you will be interested to know that I am located at the Y. M. C. A. in Jerusalem. This is the most wonderful building of its kind in the world, the gift of an American Christian man to Jerusalem. It cost over a million dollars. . . .

"I had a stormy passage over the Mediterranean sea, but was able to stand the trip in good shape and landed at Jaffa, then coming to Jerusalem by bus very much like our Greyhound buses at home.

Is Much Changed

"Words fail to describe the great and wonderful changes that have taken place since I was here 12 years ago. Yesterday I stood on one of the intersection corners of the city. There I saw one of the most up-to-date devices for regulation of traffic: a camel loaded with produce, a donkey with an Arab on his back, an up-to-date bus loaded with passengers, and a Buick car. This will give you some idea of the changes that are taking place in the Holy City. From my window I have just counted 15 large, modern buildings that would compare favorably with any of the buildings in Los Angeles or any of our large cities. Just opposite to the Y. M. C. A. is the new King David hotel which cost over two millions of dollars to build.

"I have just returned from a church and the building was a wonder, built of stone and furnished beautifully. All that was lacking was a preacher with a message. I will have plenty of time to see and investigate many places and conditions in which I am very much interested, and will be able to bring these facts and places to our people when I return."

By ANNE ADAMS

An all-occasion crepe frock with becoming surplice yoke is the wise choice of the matron whose wardrobe is as limited as her income. She finds the clean-cut lines of the collarless neckline a nice change from too many binding collars, and slenderizing as well. She's also partial to diagonal or vertical-line seams which do their bit, in a very subtle way, to reduce the size of bust and hips. Best of all is the versatility of just such a frock for you may dress it up with more elaborate accessories, or alternate with tailored ones. Choose satin or sheer wool for it, if you prefer.

Pattern 2399 is available in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32 and 34. Size 22 takes 4 1/2 yards 39 inch fabric. Illustrated step-by-step sewing instructions included.

Send fifteen cents (15c) in coins or stamps (coins preferred) for each Anne Adams pattern, thirty cents for book of 12. Write name, address and style number, State size.
