Well Drilling R A. West R 6 Tel. 110FS. Late Onion Crop

For anywhere for hire truck service. Call Joe West. Tel. 5278.

The late onion crop for shipment is now estimated to be 10,- Medium weel 731,000 100-lb, sacks, compared with 9,283,000 sacks harvested in 1934, and a five-year (1929-1933) average production of 9,- Standards ...

965,000 sacks.

The combined estimate for the central and eastern groups of late onion states indicates that onion production on September 1 is 11 per cent less than was estimated. a month ago. Thrip damage daring August was more extensive than usual in most commercial producing areas. A combination of adverse weather conditions during August-heavy rains and floods followed by a long period of high temperatures - caused much onion crop damage, especially in New York, Ohio, and Michigan, In the Western states, the late crop made normal or better progress for all states except in Utah where Eggs-Candled and gradedthe dry season has curtailed yield

prospects. Harvest of the Lake Labish onion crop is just beginning and prospects are very promising. Yields are just about up to average and the quality is reported as very satisfactory.

## Traders Discount Mussolini's "No"

Wheat Drops Further With Surprise Developments Sunday Expected

CHICAGO, Sept. 21-(P)-Refus-ing to take Italy's "no" today as a final rejection of peace offers, the wheat market responded with a moderate downturn of prices. Cautiousness in regard to possible surprise developments in Europe over Sanday ruled dealings, especially as trade drew to an end. A firm undertone in wheat values was evident, with rallies easily achieved, and the bulk of selling appearing to come

from recent buyers who were in a position to realize profits. Wheat in Chicago closed unsettled %-1% under yesterday's finish, Dec. 99 1/4 - 1/4, corn 1/2 off to % up, Dec. 58%-%, oats at 1/4 decline to 1/2 advance, and provisions varying from 5 cents

setback to an equal gain. Closing quotations: Wheat: Sept. 98; Dec. 99 1/4 %; May 99 % - %. Corn: Sept. 81 % - %; Dec. 58%-%; May 581/2-%. Oats: Sept. 27%; Dec. 28%

May 29 %.
