**SILVERTON, Sept. 22.**—On October 1, J. M. Dolan, "Mike" to everyone who has ever met him, will complete four years as caretaker of the Silverton city park. During that time, Mr. Dolan has played official host to 125,000 people at the park. During the past four months, 25,000 have picnicked under Mr. Dolan's supervision.

Mr. Dolan had help this year, Cella Hanan and Tom Ballantyne, who were recreational advisors, volunteered to assist on a couple of Sundays. They wore "Ask Me" badges on their arms and later admitted that about the only question asked them was "Where can we find Mike?" However, Mr. Dolan speaks highly of their willingness and cooperation.

Mr. Dolan also has much that is complimentary to report about his life guard this year. George Smith was selected as life guard for the city pool. That's some job, according to Mr. Dolan. Sometimes, he said, there were over 300 by actual count in the pool at one time. There were no casualties and only two accidents during the entire summer at the pool. Smith was able to rescue four persons who would otherwise have drowned, and Merle Row, who assisted, rescued one.

The county superintendent, Mrs. Fulkerson, visited the school and assisted in the testing. Mrs. Ethel Gulvin is the new teacher.

Prune picking is still going on for the fourth week. Driers are full, causing a rest for a couple of days in picking. Good weather has enabled the harvesting of fine prunes in a fine shape and of fairly good size. The Taylors will finish up in about a week.

Most other work has given over to the prune harvest as this is a prune district.

The hike of about a mile went slowly. They passed the buck—it weighed 160 pounds—back and forth, until finally they decided to drag the animal, but that looked undignified if not unhygienic.
