Cutwork Without Bars

CUTWORK LINENS PATTERN 585

Cutwork Linens Pattern 585

Now that you've put in all your tulip bulbs and must wait till spring for their beauty, let tulips grow under your needle. You'll find this cutwork fascinating. You can embroider the flowers in the colors that you will have in your garden or you can do the entire design to match the linen. It's very rich-looking to use a natural color thread on white linen. Cutwork is so durable, it is well worth using it on large linens such as dinner cloths. These motifs — they're without bars and

that certainly simplifies the work — would be handsome on one; the smaller motifs make lovely corners for scarfs, dollies and pillows.

Pattern 585 comes to you with a transfer pattern of two and two reverse 6 1/2 inch motifs, two and two reverse 4 1/2 x 6 inch motifs and six 2 1/2 inch corners for napkins or small linens; complete directions for doing cutwork, yardage requirements.

Send 10 cents in stamps or coin (coin preferred) for this pattern to The Oregon Statesman Needlecraft Dept.

Legion Auxiliary Serves Many Projects

The layman may be asked, "What does the American Legion auxiliary do? Why have such an organization?" A few paragraphs quoted from a message sent out by the national organization answers these questions:

Aiding to carry on the great task of caring for the World War disabled who still fill the government hospitals to the number of more than 40,000 and of whom other thousands are still struggling to regain a place in civil life, is one of the first endeavors of the auxiliary.

More than one million dollars are expended each year by the auxiliary in hospital and welfare work for the benefit of the disabled as well as an inestimable amount of personal attention which is often the most valuable thing which can be given a suffering man in a hospital far from home. The auxiliary establishes and maintains contact between veterans in hospitals and their families. It assists the families of ex-service men who are in hospitals or unable to work. It aids disabled men in finding employment and helps dispose of the products made by them in hospital workshops.

For the children of World War veterans the auxiliary is also doing a very important work. It is aiding thousands of children every year to receive the necessities of life. Destitute children are placed in homes where they can receive their rightful heritage of a wholesome American upbringing. Assistance is given to widows of veterans and wives of disabled men in keeping their families together. Nurseries for the children of the disabled are sponsored at government hospitals.

Units of the auxiliary throughout the country are working with their posts for the betterment of their communities. This work is of such a nature that the auxiliary has assumed national importance. Through the development of their individual communities, the auxiliary units and their posts are developing the entire nation. Each member of the auxiliary becomes a part of this widespread movement for civic betterment.

The American Legion auxiliary is a member organization of the Women's Auxiliary of Fidac, the federation of the veterans of the principal allied countries. This organization is doing a powerful work for peace and good-will among the nations represented in it. It is giving voice to the united mind of all the women who men have fought for the allied cause in the World War. A membership in the American Legion auxiliary automatically confers a membership in this Fidac auxiliary, which is the largest women's organization in the world, and which is doing a very effective work for world peace.

Teacher Pay Date Held Still Wrong

Salem's school teachers, as represented by the council of the teachers' association, recently would be put on a 12-months' salary basis in place of the old nine-months' plan. But they found early this week that the monthly pay checks would not be forthcoming at the times they had hoped, the council felt. As a result the council at a special meeting requested the administration to pay a half-month's salary October 1, half-month's October 15 and full month's pay on the 15th day of subsequent months.

Superintendent Silas Gaiser late yesterday said, however, that he would follow the law, which he interpreted as permitting the district, on the 12-months basis, to make out a payroll only on the 15th of each month. Some of the teachers had urged the half-payments October 1 because their funds had run low during the summer.

One reason for the original request for spreading their salaries over the whole year was that they would not find their pockets empty during the summer months; some had hoped for a first of the month payroll plan to make it easier for them to pay bills falling due between the first and tenth of each month.

Frequently Housewives, Though Active, Need Constipation Relief

Modern Occupations Have a Tendency to Slow Up Normal Digestion. Honey Krushed Wheat Bread Corrects That

Mrs. F. R. McQuinn, living at 1020 Madison street, writes:

"Honey Krushed Wheat Bread has corrected a habitual tired feeling for me, caused by chronic constipation. Had been in this condition for many months. Cathartics gave me but little relief and seemed to weaken me more. Thanks to Honey Krushed Wheat Bread I am much better. Bowels move regularly and I feel like a different person. I am glad to recommend this wholesome local product to anyone troubled with bowel and stomach disorders."

Throughout the country housewives who have served the new Honey Krushed Wheat Bread for even one week, report that constipation has been greatly relieved and in many cases eliminated. This has been accomplished because this delicious new bread contains the ENTIRE whole wheat kernel which gives your diet the necessary roughage, thereby eliminating dosing with cathartics and purges.

Health Survey of County Arranged

Disabilities and Chronic Ailments Checked up; U. S. Cooperates

The Marion county health department will cooperate with the United States public health service in conducting a survey here beginning next month of the extent of disabilities, disabling illnesses, chronic ailments and physical impairments. Dr. Vernon A. Douglas, county health officer, said yesterday. He said he had received a letter from H. S. Cumming, surgeon general, requesting assistance of the department here since Salem was one of several cities throughout the United States selected for survey purposes.

Dr. Douglas said the survey, involving a house-to-house canvass, probably would start about October 15. It is expected to be financed by the WPA.

As outlined by Dr. Cumming, the health service is preparing to study existing health records, secure additional information by house-to-house canvass and correlate this data with a general survey study being conducted by his division of the national treasury department.

"The whole problem (of disability) is becoming increasingly important with the gradual rise in percentage of population over 60 years of age," Dr. Cumming explained in his letter to Dr. Douglas.
