

Youth Rally Held at Zena

Elton Fishback Tells of Philadelphia Meet of Endeavor

ZENA, Oct. 7—Sixty-five persons were present at the inspiring rally of the Folk county Christian Endeavor union for which the Spring Valley society was host at the Zena church Friday night. Victor Utterback, president of the Folk county group presided. Vernon Merrick, local president, was in charge of arrangements.

Elton Fishback, former county president and now regional vice president, was the main speaker. He gave an inspiring account of his trip, with nine others from Oregon, to the international Endeavor convention at Philadelphia where they won first prize for Oregon, with best float, in the parade in which over 50,000 young people participated.

Oregon Ranks High

Fishback told of the many entertaining features of the convention. He said the new city auditorium with a seating capacity of 42,000 was an ideal place for the convention. Philadelphia, known as the city of brotherly love, furnished 300 women as ushers. A choir of 1800, all in white, sang. Oregon was accorded one of the leading states in Christian Endeavor work. Dr. Poling was a popular speaker.

In the parade, Oregon was the 24th state in order of march. The parade was one of the largest ever held in Philadelphia, 200 floats being entered.

Ira McKinnier, Elaine Worthington, Ruth Shepard and Marilyn Hadley told of what impressed them most at the convention at Turner in August. After the program, the group had a social hour and refreshments at the local school house. At the executive meeting, plans were made for the county convention to be held November 15 and 16.

Cardinal Hayes Arrives for Eucharistic Congress

Patrick Cardinal Hayes, left, archbishop of New York, and designated by Pope Pius XI as his personal representative at the seventh national Eucharistic Congress in Cleveland, was greeted on arrival by the Most Reverend Joseph Schrembs, center, bishop of the Cleveland diocese and chairman of the Catholic conclave, and Msgr. Diego Venini, right, private secretary of Pope Pius. Huge throngs welcomed Cardinal Hayes as he proceeded to St. John's cathedral.

Many Meters Are Installed

Replace Inaccurate Ones and Bring 'Flat Rate' Service to Close

The Salem water department has installed approximately 350 new or rebuilt meters since the city took over the water system, it was reported at the department offices yesterday. These were about evenly divided between installations replacing "dead" meters and those supplanting "flat rate" services.

The meter replacing program will continue, because there are still 225 flat rate connections in existence and because meters in service are frequently found to be registering incorrectly. The residential flat rate has been \$1.20 a month and the minimum with the smallest meter permitted, one with a five-eighths inch connection, is the same amount. Minimum meter rates range upwards to \$1.75 for three-quarter inch and \$2.50 for one-inch connections.

With the receipt last week of meter testing equipment, the department plans to pursue a steady meter inspection practice and replace faulty water measuring instruments as rapidly as they are discovered.

During the better than seven years the Oregon-Washington Water Service company owned the local water system, approximately 2300 meters were installed; a large number of them replaced flat rate connections. Although the average life of a water meter is considered to be ten years, there are many in use here that are up to 20 years old.

Institute Friday; Student Holiday

Salem school children will enjoy a holiday Friday while their teachers gather at Salem high school for the annual county institute sessions.

The activity clubs at the senior high school, because of the holiday, will meet Thursday instead of Friday. Other student meetings scheduled are as follows:

Monday—Student body council, Stagecraft club and Girls' league cabinet; Tuesday—Girls' league department heads' luncheon; Wednesday—Junior class meeting.

Tanner Families Leave Ranch at Zena For Old Homes in Middle West

ZENA, Oct. 7—Among those who are changing their place of residence this fall are Mr. and

Mrs. Fred Tanner, sr., and Mr. and Mrs. Fred Tanner, jr., and three children, Betty, Gerald and Richard, who left Tuesday for their old home at Verdel, Neb.

going home through Yellowstone park. They lived on the A. M. Patrick fruit ranch.

Mr. and Mrs. C. A. Hallemann and children, Carolyn, Jack, William and Robert, are moving from the Flint farm to the Kelly farm which was just vacated by the Floyd Gray family who moved to the Roy Vance place.

Water System is Mapped in Detail

Shows All Connections; to be Kept up to Date as Improvement Made

Data for up-to-the-minute drawings showing every pipe, connection and fixture in the city water system are now being gathered by R. E. Koon, Portland engineer, and two assistants preparatory to redesigning the distributing network for better efficiency, fire protection and water quality, it was reported at Water Manager Cuyler Van Patten's office yesterday. Once a complete set of detail drawings for the system is obtained, it will be brought up to date each week as new connections are made or old ones discontinued, it is planned.

Van Patten said it was not certain how soon the engineers would be able to prepare plans and specifications to permit reconstruction work to start. He hopes the task will reach that stage on or before the first of the new year.

"When we are through with this survey we will have a clear record on scale drawings of every pipe, tap, valve, house condition, pipe size and pipe kind in the system," Van Patten said.

Last Highway Gap Contract is Let

DETROIT, Oct. 7—A new contract has been let on the Santiam highway for several miles of new road. This will finish the road over the mountains except for the macadam finish to go on later. Roy Houck has the contract.

Grandma Evans is quite ill with a nervous disorder. She is staying in Salem with her daughter, Mrs. V. H. Ritchie.

Mrs. Goins has returned home with her baby daughter.

Bobby Young entered Woodburn high school this week. S. Paul Jones and son, Paul, Jr., of Salem, were visitors in Detroit this week.

William L. Bohn Dies At Portland Hospital; Funeral Held Sunday

WOODBURN, Oct. 7—William L. Bohn, 76, died Thursday night at a Portland hospital where he had been taken for a major operation Tuesday. He was born in Wisconsin in 1859 and has resided in Woodburn for many years. He is survived by his widow, Clara Bohn; two daughters, Mrs. Elma Gorman and Mrs. Freda Edwards, both of Portland; and two grandchildren, also a number of other relatives.

Funeral services were held at the Presbyterian church, Sunday at 2 p. m. Rev. George R. Cromley of the Woodburn Presbyterian church, and Rev. R. W. Achorn of Oregon City officiated.

Budget Department in Engineer's Office Now; Bonus Board Downtown

The state budget department, heretofore located on the fourth floor of the state office building, moved Monday into rooms in the state engineer's office. The state bonus commission also has moved from the fourth floor of the state office building to the Masonic temple in the downtown district. Governor Martin, State Treasurer Holman and the board of control will move into the rooms vacated by the bonus commission.

Grangers' News

VICTOR POINT, Oct. 7—Union hill grange will hold its annual grange-community fair Saturday night and there will be exhibits of canned goods, agricultural products and a juvenile department besides individual farm exhibits and a bazaar.

Prizes will be given for the best farm exhibits and ribbon awards made on all of the others.

A "booster night" program will be given with Mrs. Floyd T. Fox, grange lecturer, in charge, and all of the officers participating. No admission will be charged.

Miles Linen Mill Running 2 Shifts

Over 60 Working Steadily Reports Peters; Net Demand is Good

The Miles linen mill has been running two shifts and employing between 60 and 70 men for several months past, C. J. Peters, manager, stated last week.

The greater part of the mill's sales are made west of the Mississippi river, Peters declared, although, on orders made through the San Francisco and Chicago offices of the Linen Thread company, to which the local mill is a subsidiary, the destination is not known.

The chief demand of the west for a commodity, Mr. Peters said, is for netting. The company receives orders for nets from California, the Columbia river region, Puget Sound and Alaska, he said. The netting equipment was added to the mill last year.

Clarence Judd is Injured at Camp

AUMSVILLE, Oct. 7—Mr. and Mrs. Alrbart, living north of town and newcomer here, received word Wednesday of the serious injury of their son, Clarence Judd at a logging camp about 20 miles from McMinnville. The young man was caught between two logs and crushed. He was rushed to the hospital at McMinnville where hope for his recovery is held.

Mr. and Mrs. Fred Jones and children have moved into the Fred Garbe house. Two daughters will be freshmen in high school and a son will be in the sixth grade.

First of Card Series For Mt. Angel Society Will Open This Evening

MT. ANGEL, Oct. 7—The season for the series of card parties, sponsored by the St. Ann's altar society will open Tuesday, when both bridge and "500" will be played in the dining hall of St. Mary's school, at 8 p. m., and will be followed by lunch at a late hour. Prizes will be awarded. The card parties will be given every two weeks. The committee in charge for next week includes: Mrs. John Diehl, chairman, Mrs. Jacob Diehl, Mrs. Anna Edmunds, Mrs. M. Dardis, Mrs. Bernard Darda, Mrs. Robert Drysdale, Mrs. Mary Ertel, Mrs. G. D. Ebner and Mrs. John Edner.

they go to Washington county, where they have other relatives.

T. J. Merrick and Lincoln underwent a successful operation at the Salem general hospital last week.

Salem Inventors Will Exhibit; Manager of Show Coming Today

John T. Anderson, manager of the Pacific Northwest Inventors' show which opens in Portland October 19, will be in his offices today in the Oregon building to confer with Salem exhibitors relative to staging their inventions.

Among the inventions, locally invented, are: a new type oil burner for stoves and furnaces, invented by Frank Chataas; a fire extinguishing bomb for combating fires in inaccessible places, invented by E. J. Reaso; a new type farm cultivator, by R. H. Smith; a new type refrigerating unit by A. D. Jacobson; a unique fly-paper hanger, invented by Mrs. L. M. Brown; and a new type of crab net, invented by Frank Loose.

Fire Prevention To Be Stressed

The Salem citizenry was urged by Mayor V. E. Kuhn last week to devote more than usual thought this week to the prevention of fires, in recognition of national fire prevention week. The mayor's proclamation read as follows:

"Inasmuch as there has annually been set aside a week known as national fire prevention week, and inasmuch as every municipality should support any effort that has for its purpose the decreasing of fire hazards, the people of every community, regardless whether they live in the city or rural sections, should lend every effort to support said action.

Therefore, for the benefit of the people and their industries as a whole, I hereby proclaim the week of October 6 to 12 as fire prevention week.

"V. E. KUHN, Mayor, Salem, Ore."
