Broom Corn Samples Grown in Oregon Are Eved by State Board

Secretary of State Snell has received samples of broom corn from the Boardman district, which will be submitted to the board of control at its next meeting. Snell was instructed to obtain

these samples and determine whether the product is suitable for the needs of the state school for the adult blind, which operates a broom factory.

The state heretofore has purchased its broom corn in the eastern

zation will be discussed by the ell died a few months ago. prune control board at a meeting tion have already been drawn up and it is contemplated that the present board will continue as a board of directors until the next regular election in April, it was said yesterday.

Membership in the new organization will be voluntary, but it is believed by the prune men that a sufficient number of the growers 24 Traffic Death who have seen the benefits of a code under the state agricultural adjustment act will join. Those who do not will not have sufficient strength to affect the market, one of the group declared. Will Set Minimum

According to tentative plans the board will set a minimum price at which prunes may be sold and any member may sell to any buyer he desires at a figure not below the minimum price. In thus selling the grower acts as an agent for the cooperative. The group will be in a position to sell the prunes of its members on the world market in case local buyers do not meet the minimum price, it was stated.

The creation of the voluntary association comes as a result of claring the state AAA unconstitu-
