Ready Soon For Cement

Talbot Farmers Fear Loss of Clover and Grain Due to Freeze

TALBOT, Nov. 5.—Work was resumed on the new basement under the Talbot school again this week, under the WPA project. A ditch is being dug to drain the basement. A crew of 11 men is working. They will pour cement for the basement next week. Fred Jorgenson is foreman.

This project was started last spring, but was shut down owing to lack of funds.

Crops Damaged

The unusual cold weather has caused considerable damage in this vicinity. Limbs laden with snow and ice caused the power line to break early Thursday morning. Telephone lines were also a source of trouble. Trees that had not shed their leaves were so heavy with snow many were bent to the ground. It is feared the young wheat and grain is damaged to a great extent. Farmers who had not dug their potatoes and stock feeds say they are frozen. Residents here don't ever remember such an unusual cold spell this early in the fall.

Carl Rutschman, teacher, gave a Halloween party in the school house Friday night, for the pupils and their parents. The program consisted of a Halloween song by the school; play, "The Scarecrow," by Mrs. Lou Gillison, Ronald Smith, Helen Walker, Donald Cole, Calvin Bursell, Annabelle Smith, Loren Hoven, Gaynell Cole, Loren Turndize and Albin Bursell. The rest of the evening was devoted to games and fortune telling. A Halloween lunch was served.

Council Hears Dam Proposal

Street Improvements and Other Matters Before City Fathers

SILVERTON, Nov. 5.—L. H. Fischer, former owner and operator of the Fischer flouring mill at Silverton, appeared before the city council at its November meeting Monday night to ask if the city would be interested in repairing the old flour mill dam to prevent gravel from filling up the swimming pool as it has in former years. Fischer explained that such repairs would come to between \$700 and \$800 and that whoever took hold of the mill again would reimburse the city at that time. The city could hold the dam, he said, until such reimbursement could be made.

Dr. C. R. Wilson, park committee member of the city council, explained that his committee had engineered a six-foot dam above the pool which the committee hoped would prevent gravel from tumbling into the pool as it had done in former years. Some doubt was expressed should the remainder of the old Fischer dam go out, and Otto Legard, council member, suggested that the Silverton chamber of commerce might be interested in helping to rebuild the dam that the pool would be insured against gravel. The pool, it was explained, is one of the very big drawing cards to Silverton for four months out of the year.

Hear Mrs. Blackerby

Mrs. Sophia Blackerby appeared before the council in regard to cutting the corner of her McClaine street property to improve the curve there. The matter had been brought for consideration at an earlier council meeting, and Hugh Ranke, council member in charge of the improvement, reported that Mrs. Blackerby, after giving permission to cut the corner, had stopped the work until she could get a written statement of just how much was to be removed. Friends of hers, she reported on Monday night, had advised her to get this as otherwise more might be taken than at first discussed verbally. Mrs. Blackerby referred to Mr. Ranke's conduct as being "uncourteous and unfair." Mr. Ranke offered apology for any "uncourteous and unfair" treatment, which he assured Mrs. Blackerby had been wholly unintentional and that the entire matter was evidently somewhat misunderstood. Mrs. Blackerby assured the council she had no intention of charging for the property.

Urges Street Repairs

A letter signed by Lowell Brown of the Interurban Telephone company, urged the city to go ahead with its repairing of McClaine street. The letter gave the information that the telephone company had gone to the expense of moving corner poles at a cost of \$25 and would appreciate it if the work in improving the street would be continued at once. The letter was ordered placed on file.

The city body declared the house belonging to W. E. Baxter on Mill street a "nuisance" and ordered the owner to either repair or remove it at once. The building, according to report made by the Silverton fire department, has been condemned by the chief fire marshal.

Southern State Beauty Queens

"Miss Alabama"—Senator Harrison—"Miss Mississippi" At an interstate beauty contest at Tupelo, Miss., Miss Tommie Peck of Muscle Shoals, left, was chosen "Miss Alabama", and Miss Rachel Smith, right, of Booneville, Miss., was crowned queen of her native state by Senator Pat Harrison of Mississippi.

daton from Donald Baker and P. D. Quisenberry to open a package liquor store at 207 N. Water street was granted. This store was formerly occupied by an ice cream plant which closed its doors a few weeks ago.

A letter from L. Yates, street commissioner, reported a number of sidewalks out of repair at Silverton, among them one on property belonging to the city itself at 430 N. Church street. The council members suggested that the city repair its sidewalk at once to set a good example, and then instructed the recorder to notify these people to either repair or rebuild their walks within 30 days.

The report on securing non-skid surfacing on the corner for the water, proved unfavorable as Mayor Garver gave the information that the county had dismantled its machinery and had up all its oil but that next May consideration would be given to the Silverton corners should it be desired at that time.

M. G. Gunderson, city treasurer, reported that steps should be taken to care for the unpaid balance of improvement bonds due January 1, 1936. The matter will be taken up later, according to the decision of the council.

Following the report of the judiciary committee on an ordinance requesting license for plumbers in Silverton, the petition was tabled.

The council voted to waive again the franchise on the spur track to the Fischer Flouring mill upon request of Alfred A. Hampton, representing the Southern Pacific company.
