

Aurora Census Has 94 Names

16 Tables Are Filled For '500' Party Given by Women

AURORA, Nov. 7 — Taking of the school census for this district has been completed. The clerk reports a total of 94, 53 boys and 41 girls.

The Aurora Woman's club gave a card party Saturday night, sixteen tables of "500" were in play. Sandwiches, cake and coffee were served. High scores went to Mrs. B. W. Stoner and Dr. F. C. Renfrew and consolation to Mrs. Robert Armstrong and Mr. G. Church.

Cow Attacks Boy
Frank McAllister Jr., was attacked by a cow Wednesday evening and was struck in the face by horn so that it was necessary to take several stitches. The cow, which has a young calf, became infuriated when the boy and his dog entered the stall.

The Aurora grade school gave a Halloween program Friday afternoon. Each grade was represented by several numbers. After the

WPA Staff of 34 Is Working

Number of Ex-Relief Men and Women Obtaining Jobs Increasing

An administrative force of 34 men and women is working in the third Oregon WPA district, for which Salem is headquarters, to speed up the employment of 3734 eligible heads of families, a survey here yesterday revealed.

They face the task of administering the works progress program in eight counties—Marion, Polk, Yamhill, Tillamook, Lincoln, Benton, Linn and Lane—having an area of 12,282 square miles, a population of 216,910 persons and 9000 miles of roads.

As of November 1, 1186 of the eligible men and women were at work on projects in one manner or another connected with the works progress administration although 845 of these were on actual WPA projects. Two hundred sixty-one were with the forest service, 119 with the United States army engineers and 318 on contract projects such as the building of restrooms along the Willamette river from Independence to Springfield.

Some Non-Public Jobs
One hundred twenty-three persons eligible for WPA jobs had non-governmental employment on November 1. They remain eligible under the WPA should their present jobs run out.

The payroll for the district administrative force has not been divulged but it is estimated to be between \$3000 and \$3500 a month. The director receives \$225, his assistant \$200, five department heads \$175 each, five resident engineers \$150 each and the 22 other office employees from \$64 up per month, it is understood.

Wages totaling \$5742.24 were paid to 237 workmen in the eight counties on WPA projects between September 23 and October 31, it was reported at the district office yesterday. Between October 11 and October 25 \$457.13 was paid out to 37 laborers on Marion county projects. These are the latest tabulations made here by the finance department.

WPA Nearly Double
A check of projects yesterday showed 571 men and 23 women employed throughout the district. Officials believed 1077 men and 23 women would be at work by next Thursday. Forty-five projects were under way last Monday while 25 were nearing the starting point.

Wage scales on WPA projects vary by counties. For Marion county the scale is \$48 per month for unskilled labor, \$55 for semi-skilled, \$70 for skilled and \$77 for professional or technical positions. The working month consists of four 30-hour weeks.

Parent-Teachers Adopt School Band As One of Big Projects For Season

Independence, Nov. 7—E. T. Ellefson, local band leader, plans in conjunction with the parent-teacher association, to organize a grade school concert band.

The P. T. A. has taken the school music as the chief project for the school year. They plan to raise \$200 by different means, in the near future, to promote the band and orchestra work.

Ellefson stated in his talk to the P. T. A. Monday afternoon, that the Northwest is far behind the Midwest and East in music and band work in the schools and communities. He states that within a year he can take children with limited music work, and teach the band to play marches and simple overtures.

Mrs. Ellefson, local WPA teacher, has organized a dramatic class that meets in the Sloper hall several nights a week. She has outlined five plays for this class to give, as finances from these plays must be used to benefit some organization in the community, she has stated that the proceeds of these plays may be used toward the band work.

Rotary Hears of People of Tibet
"Roof of the World" Has Little Culture Says Missionary Here

M. C. Griebonow, dressed in the native costume of Tibet, told the Rotary club something of the life of Tibetans and of his experiences in coming out from the far interior of China. For 18 years he and his wife were stationed in Tibet near the Chinese border as missionary for the Christian mission alliance.

People of Tibet differ from Chinese in dress, language, race and religion. They live on the "roof of the world," his home being at an altitude of 9300 feet. Wind and cold prevail. Among the classes are the sedentary, those who live in mud huts, and the nomads, or roving tribes. Another classification is the priests, who are very numerous, and the lamas. The lamas support the lamas out of their poverty. The priests use their power to drain the last penny out of the people.

Ways are Primitive
A small bowl is the only eating utensil the natives have. They drink tea made from a sort of brush; also a parched barley flour. Yak milk is drunk. The natives endure their oppression because they are taught they are

Reciprocity on Lumber Is Hit

Martin Protests Move to Lower Duty to Canada; Cites Industry Need

Reciprocal negotiations with Canada, which would result in a reduction of the present duty on species of lumber manufactured in British Columbia, were protested Thursday by Governor Martin in a letter sent to President Roosevelt.

"You may not fully appreciate how vital the logging and lumber industry is to the state of Oregon," Governor Martin's letter read. "This industry employs more than 63 per cent of the wage earners in all industries and furnishes more than 55 per cent of all industrial payroll."

Called by Death
SILVERTON, Nov. 7. — Mrs. F. M. Evenson was called to Victoria, B. C., early this week by the death of her mother there.

Advanced Chorus Offers Operetta

More than 50 Salem high school students, members of the advanced chorus or opera class, will present "Riding Down the Sky", a humorous operetta depicting life in central America, in the high school auditorium, the night of November 18, according to Lena Belle Tartar, director of music. A small admission fee will be charged.

This operetta, the first to be presented since February, 1934, boasts the catchy rhythms and striking color parts of the composer, Geoffrey O'Hara, and offers ample opportunity for the humorous makeup and ludicrous costuming that entertain a light opera audience, Miss Tartar says. The story is of the romance of a Spanish senorita and an American aviator.

Need Inspectors For School Jobs

At least three and possibly four inspectors will be employed by the Salem school board, under a PWA regulation, to oversee the building projects to be started soon, Chairman Walter B. Minier said yesterday. PWA officials have advised there be one inspector each on the Leslie junior high and the grade school locations and one or two on the senior high school project.
