

# Mussolini Outlines Program to Protect Italian Food Supplies

## Economic Siege Not Worrying

### Crop Exportation Limits Set, New Growths Are Discussed Secretly

ROME, Nov. 20.—(AP)—Premier Mussolini satisfied himself today that Italy can feed itself regardless of the economic siege laid down by 51 nations opposing his war in Ethiopia.

He approved regulations to limit certain crops whose exportation has been halted by sanctions and to grow others which formerly came from sanctionist countries. The plans affect every one of Italy's 3,646,000 farms.

Details of the program were carefully withheld.

"Pressure" Points Unveiled

"If sanctionist countries knew everything we did, they would know where to put on the pressure," said an official.

The farm plans were made at a secret meeting in the office of the premier between H. Duce and high officials of the agricultural federation, one of the 22 bodies of the fascist corporate state which comprises all Italian farmers. A few specialists and government officials also were present.

Three big objectives were outlined:

First, to maintain, and increase, where necessary, production of foodstuffs and fodder.

Second, to increase immediate production of certain things needed by Italian industry in the manufacture of substitutes for articles formerly imported.

Would Limit Exports

Third, to limit certain products, some of which have been exported in the past, and devote the land this released to crops for home consumption.

The conclusion of the farm leaders and experts, which Mussolini accepted as proved, was that "agricultural production can meet the country's food requirements under present regulations and those to be announced later."

of redemption on tax foreclosures in Oregon.

District Attorney W. H. Trindle has held the foreclosure legalities for the county. Duce and foreclosures instituted under provisions of the same act on which sheriff's deed will soon be issued, was filed September 17, this year, and since this foreclosure was started, tax payments have been reduced to 150 per cent of the property under the second foreclosure on which no tax payments have been made.

Proceedings Unaffected

By New Law

These two foreclosure proceedings are in no way affected by the provisions of chapter 5, Oregon laws, special session, 1935, eliminating interest and penalties on taxes for 1934 and all prior years.

The tax collecting office is now receiving payments on the basis of the new law, enacted at the special session and signed by the governor November 8. Under this new law, one-fourth of the earliest year of taxes due is the minimum amount received. Until April 15, 1936, it is unnecessary to make any payment on the current year's taxes to take advantage of the provisions in the new law, but after April 15, it will be necessary to pay current taxes in full before the date of delinquency, which is December 16, 1936, before prior year's interest and penalty may be eliminated.

Coos Bridge May Be Named for Simpson

The commission discussed a request from the Marshfield district that the new Coos bay bridge be named for A. M. Simpson, district attorney who probably will be taken later.

The board of control deferred action on a request of the highway commission to set aside its recent order that the highway department pay 10 cents a yard royalty on all sand and gravel taken from the navigable streams of this state.

Highway officials said the order would cost the road department approximately \$75,000 annually, and would interfere with the bids on highway jobs already under contract.

## Baer Begins Trek Back to Germany

PORTLAND, Ore., Nov. 20.—(AP)—Walter Baer said goodbye to his wife and three children today and began his trip back to Germany. Under cover of an early morning fog, Baer was taken to Vancouver, Wash., to entrain for Seattle. He is being deported under an immigration law which provides that aliens twice convicted of crimes involving "moral turpitude" must be sent back to their native land.

His removal to Vancouver, officers said, was occasioned by fears that a mass demonstration of sympathizers might lead to trouble.

Baer's three children were not at the train.

## Vegetable Crops Committee Meets

Poultry, Turkey Raisers Also Talk Problems at Conferences

Commodity committees appointed at the recent agricultural economic conference held in Salem are holding organization meetings with the view to studying their various subjects and later meeting to prepare reports that will be made to a general conference meeting which will be held in January.

The committee on vegetable crops met Wednesday at the office of Harry L. Riches, county agent. Meeting with the committee was Professor A. J. B. Bonquet of Oregon State college. Attending the meeting were A. F. Hayes, chairman, Geary Tate, C. C. Hart, Larry Goss, Fred Comstock, Ronald Jones, W. A. Stark, and Harry Boehm, Ray Glatt, general conference chairman, also attended.

Later Session Planned

A general discussion of the problems of the vegetable growers was held. A later meeting will be held after further study of the problems is made.

Committees on poultry and turkey raising met Tuesday. Professor H. E. Cosby of the state college was chairman. Market outlets, the future of the industry and poultry unit sizes were discussed.

Lloyd Lee is chairman of the poultry committee. M. N. Wapack, P. F. Stalshelz, Will DeVries and S. L. Menard were the other members who attended.

Members who attended the turkey growers committee meeting were: C. H. Coyle, chairman, Morris Hynes, Guy Aupperle, Mrs. B. O. Longford, A. N. Doerfler, George Thomason, and W. W. Rutherford.

## Mayors Call For Renewed Relief, State Payments

WASHINGTON, Nov. 20.—(AP)—New federal relief appropriations and "adequate" state contributions were demanded today by the nation's organized mayors.

Calling President Roosevelt's enunciation of a "no starvation" relief policy, the United States conference of mayors voted to ask congress for enough cash "to meet a planned and comprehensive program of relief work and direct aid to meet the unemployment situation" through the fiscal year 1936-37.

Such a program would extend federal relief activities, including the relief of 200,000 unemployed, to June 30, 1937. The present relief program, as projected by latest White House statements, embraces a virtual end to direct relief by December 1, and expenditure of all but \$900,000,000 of the \$4,000,000,000 works appropriation by next June 30.

Armed Forces May Not Aid Autonomists

His words were interpreted by persons familiar with the North China crisis to mean the Japanese armed forces might not supply the encouragement counted on by Chinese autonomists to insure the success of their movement.

WASHINGTON, Nov. 20.—(AP)—American officials, while cautiously silent, looked with misgivings tonight on North China events which many interpreted as the fourth definite phase of Japanese penetration on the Asiatic mainland.

Hull Declines to Make Comment

Secretary Hull declined to make any specific comment on the imminent creation of an autonomous North China under Japanese protection. But he told his press conference, in response to requests for views on the Sino-Japanese situation, that this government was studying carefully all international developments.

Later in the day, Hull conferred with President Roosevelt.
