Strain Easing Off on Franc

Gains Run up to 5 Points In Active Issues; Copper Brighter

NEW YORK, Nov. 27. (AP)—The stock market broke its two-day downward trend today as share prices moved forward under the leadership of the rails.

Gains ran from fractions to around 2 points in a number of active issues, with a fair number of industrials and specialties improving along with the carrier issues.

Franc Pressure Eases There were also indications of a gradual lightening of the strain on the French franc in international exchange on the eve of the French chamber's critical meeting Thursday.

One of the more important divided announcements of the day was the special \$1 declaration of the newly formed subsidiary of Anaconda copper, Greene Cananea Copper Co., which meant an additional income of some \$500,000 to the parent concern.

Average Advances

The Associated Press average of 60 stocks advanced .5 of a point at 55.9, with the 15 rail shares in the compilation 1.0 to 2.9, the highest since July 19, 1934.

Wheat Clouded By Tax Doubts

Nullification Rumored as Processing Tax Fate; Corn Demand Poor

CHICAGO, Nov. 27. (AP)—Disconcerting effects of doubts about processing tax legality turned average wheat prices lower today.

Reports from Minneapolis, where at one stage December wheat showed a fall of 2 cents per bushel, said possibility that the federal wheat processing tax would be nullified soon by a decision from the United States supreme court had brought about sharp curtailment of flour trade.

Another unsettling influence was word France has authorized export sales of wheat holdings to the amount of 20,000,000 bushels.

Rallying at the last on pre-holiday evening, wheat closed nervous, unchanged to 1/4 lower than yesterday's finish, Dec. 97 1/4-3/4, corn 1 1/2 down, Dec. 59 3/4-1/2, oats unchanged to 1/4 off, and provisions unchanged to a rise of 10 cents.

Standard of oats prices were governed mainly by wheat action. Despite unfavorable weather, rural sales of corn to arrive attained liberal volume. Corn shipping demand here was poor.

Provisions reflected hog market upturn.

Heavy Carryover Of Turkeys Likely

PORTLAND, Nov. 27. (AP)—A heavy carryover of turkeys beyond the Thanksgiving trade was indicated by market reports here today.

One estimate was that perhaps 150,000 pounds would be carried over in Portland. The heavy weight of turkeys and the asking of a higher price than consumers could afford for large birds, was considered responsible.

Prices were down in general, with hens selling down to 25 cents top, and toms down to 25 cents. Occasional sales were above those figures.
