In Charge, Personnel Shakeup Denied

The state's public employment offices have been placed under the new unemployment compensation commission, which in turn, is administered by the state accident commission: but there will be no change in the personnel or policy upon which the present offices are being conducted, it was announced by the accident commission, the state employment service and Gov-

ernor Martin. The employment services will remain under the supervision of

Guy V. Lintner, director. The employment offices are now operating under a plan of affiliservice, in compliance with the Peyser act of congress. The present contract extends to June 30, 1936. The employment system in Oregon is cooperatively financed, children may stay home today and the state and local communities sleep off the effect of heavy providing set sums, which are Classes | matched by federal funds. In addition, at the present time, the fedservice and the veterans' and farm placement divisions.

### Winter Sport Plans Praised

Active Club Gets Behind Program for Detroit Snow Activities

The Salem Active club went on record this week to make a definite and continuous effort to acquaint the people of Marion county with the desirability of making use of the present winter sports area in the Detroit region, especially in view of the subsequent construction full use may bring. In resolutions to this end, the

club points out: "It is the purpose of the forest service to encourage wider use of the recreational facilities of our national forest, . . . and the fullest possible use of the facilities there provided will encourage their maintenance as well as the subsequent construction of more complete accommodations. Aid Highway

"The present highway leading to the area can only be demonstrated to be poorly maintained and inadequate by placing on it a traffic burden justified by the recreational needs of the people of Marion county and thereby hasten the construction of an adequate highway such as has already been surveyed and,

these officials reported, since the taxpayer, if he made his pay-ment before April 15, 1936, will be assessed no interest. There is no inducement, with interest waived, to expedite the money transfer; rather the taxpayer wishes to use his money until the final due date.

### **Warrant Interest** Saving Is Advised

Marked savings for cities, counties and school districts are possible through reduction of interest on warrants, Rufus C. Holman, state treasurer, announced yesterday. He pointed to a 1935 enactment which enables these governmental bodies to refund heir warrants at lower rates and called upon the government units to take this economy action.

Mr. Holman said a number of axpaying units were still paying interest on warrants a six per cent, a rate he considered high. Some units are only paying three per cent.

Holman has prepared a model ranscript for use of school districts in holding elections and in ssuing bonds to fund warrants into bonds.

Short term bids for the state highway commission, through which to refund some of its outstanding obligations, would save the state at least \$40,000 annually in interest, Holman averred.
