## Slowing of WPA Approvals Asked

Status of Eligibles and Projects Is Graphed at Headquarters

Latest orders received at the district WPA offices will mean a slowing down in the approval of new projects. It was reported yesterday by S. W. Richardson, project supervisor. Hereafter definite need must be shown for each project submitted to state headquarters.

To set up a showing for need for projects, Richardson has started to outline the status of present projects by counties in graph form. The first graph completed, for Yamhill county, shows sufficient projects already approved to employ the entire number of eligible men and women for from three weeks to three months.

The graph shows projects already approved in Yamhill county districts sufficient to provide employment as follows: Carlton, Yamhill and Wapato, 348 workers eligible, projects adequate through March 31.

Newberg, Dundee and Lafayette, 240 eligible, projects adequate through January 15.

Dayton, Amity and Whiteson, 148 eligible, projects adequate through March 5.

Sheridan, 93 eligible, projects adequate through February 5.

Williamina and Grand Ronde, 181 eligible, projects adequate through March 31.

## Takes 16 Trucks To Haul It Away

TACOMA, Dec. 26.—(AP)—It took 16 trucks instead of only eight trucks; so A. D. Fay is convinced Christmas was a success in Tacoma.

Fay, superintendent of the city garbage department, was speaking of the trucks required to haul away the downtown collection of Christmas refuse, paper boxes, tinsel and broken trees. He said nearly twice as much was collected this year as last, and reiterated his belief the amount of refuse is a sure barometer for business—or the success of a holiday.

WASHINGTON, Dec. 26.—(AP)—The public health service today recorded on its special honor roll the first woman laboratory technician to die in line of disease-research duty—Anna Pabst, 39. Her life was the sixth sacrificed

to scientific endeavor in the service in the last decade.

An animal Miss Pabst was injecting with meningitis serum in the national institute of health laboratories December 17, squirmed suddenly, causing some of the culture to squirt in her eye.

## Lions Hear About Irish Conditions

Vivid comments on Irish life and leading industries entertained the Salem Lions club yesterday noon as Mrs. John Warrell of Klamath Falls described a six-months visit to England and Ireland from which she has just returned. She is visiting her daughter, Mrs. Almos LeFors, at Dallas.

Lions members were especially interested in samples of the famous Bleek china, manufactured in Ireland. Mrs. Warrell told of a visit to the Bleek pottery works and explained the various samples of crude material and finished wares she brought back with her. She also showed pieces of fine Irish linens included the new handprinted materials.

In northern Ireland, Mrs. Warrell said, she found a dole system considerably at variance with relief administration in the United States. Laborers, she said, are permitted to work for six months, then laid off but with pay for six months to allow others to work. In some cases they receive more money during the idle than during the working part of their year. The elderly are cared for by an insurance system which pays them around \$15 a month after they reach the age of 65 years.

Mrs. Warrell is the wife of Rev. John Warrell, Methodist minister, now located at Klamath Falls but formerly at Portland.
