Artistic Home Invites Public
Six-Room Bungalow Fully Furnished; Harmony Is Noteworthy

The model house at the Imperial Furniture company store opens its doors this afternoon and what a gala opening it will be. For this six room bungalow on the third floor of the store is complete in every detail, even to the lawn in front and shrubs under the windows.

You enter the living room which is on the right and find simplified modern furnishing in green and white tones with a plain green twist weave rug and white accents about the walls and in accessories.

To the left is the front bedroom, a symphony of rich browns and rust colors. The suite is semi-modern walnut with an occasional chair of white leather. The rust and brown tones in the rug are reproduced in the side drapes on the windows.

Between the two bedrooms is the bath, the window of which has glazed chintz drapes in a gay floral design. The lower half of walls is finished in "linowall," a washable covering.

Colonial Suite
 The back bedroom is furnished with a Colonial maple suite, ruffled tie-back curtains and a woolen Arden rug which is the last word in floor covering. The tones are gold and gray with a block design.

The kitchen is the answer to every housewife's prayer for the ideal combination of convenience and beauty. The color motif is pale green with black accents. The curtains are in rainbow tints with black trim and every kitchen accessory imaginable is installed in just the right place.

The dining room which is just back of the living room contains an oak set with a handsome credenza buffet and upholstered chairs with carved backs. Colonial crane ecru curtains are at the windows.

Farmer-Laborite Succeeds Schall
 ST. PAUL, Dec. 27.—(AP)—Minnesota's farmer-labor party obtained a second place in the United States senate today with the appointment of Elmer A. Benson to the vacancy created by the death of republican Senator Thomas D. Schall.

Farmer-Laborite Governor Floyd B. Olson named Benson to succeed Schall, who died in Washington Sunday after being struck by an automobile, and to join the state's senior farmer-laborite senator, Henrik Shipstead.

Benson—a small town banker who became state banking commissioner—asserted he would align himself with the "liberal block." Friends predicted he would be in sympathy with Roosevelt policies—whereas the blind Schall had been one of the most bitter foes of the new deal.

Estate Swindlers' Bait

Glib promises of wily soldiers-of-fortune who lure gullible individuals with promises of easy wealth still find the "pickings" as rich as ever despite this so-called enlightened age. The amazing ease with which the average person can be parted from his savings is illustrated by the Chicago trial of 41 individuals charged with having obtained more than \$1,500,000 in the past 15 years by selling shares in the mythical estate of Sir Francis Drake, sixteenth century buccaneer whose fortune has been conclusively proven non-existent.

Postal Inspector Johnson of Chicago and Inspector Bishop of Scotland Yard head prosecution forces arrayed against the Chicago ring, reputedly headed by "Baron" Hartzell. The ancient story of the "Spanish prisoner" is another scheme which has fattened the pockets of "promoters" for more than a century. The victim is told that by financing the release and steamer passage of a Spanish prisoner he will share in the secret wealth to which said prisoner holds the key. The victim pays and waits . . . waits. Thousands are still waiting.

Plan Rescue For Ice-Bound Ships
 MOSCOW, Dec. 27.—(AP)—Efforts were pushed tonight to rescue 80 persons stranded in three small steamers caught in the ice in the Caspian sea while 100 passengers of another trapped vessel were trekking across eight miles of ice to shore in the Okhotsk sea.

Snowstorms forced back pilots sent to aid the 80 in the Caspian sea. Passengers have been stranded for more than a week.

One of the three vessels, the steamer Edison, played streams of hot water on the ice for ten hours but was unable to move only six miles.

The 2,000-ton freight and passenger vessel Loxovskl was trapped in ice while en route to Vladivostok from Sakhalin island. Ice pressure is threatening to crush its hull.

Members of the crew guided some passengers to shore, while others set up tents beside the steamer and are awaiting help. One passenger and one member of the crew have disappeared.

Will Enter Borah In Illinois Race
 WASHINGTON, Dec. 27.—(AP)—A decision to enter Senator Borah in the Illinois presidential primary against Frank Knox, publisher of that state, was announced today by Edgar J. Cook, Chicago attorney.

Cook, a bull moose party worker of other days and now of the liberal republican voters league of Illinois, said after a conference with the Idaho senator that the league would put up a slate of Borah candidates for republican convention delegates whenever Borah formally entered his name there or not. Time for filing expires February 8.

At Columbus, O., the chairman of the Knox-for-president committee, Edward A. Hayes, took cognizance of the Cook statement only to say that any citizen had a right to enter a slate of candidates in the Illinois presidential primaries. Hayes said the Illinois state republican committee had given its unanimous endorsement to Knox.

Horace Williston Rites Set Monday

Mr. Williston had served churches in Vancouver, Seattle, Tacoma, Port Angeles, Camas and other Washington cities prior to his retirement.

His will, filed for probate here today, bequeathed his entire estate, estimated at \$14,000 to his widow, Mrs. Lena Bradish Williston. Bequests of one dollar each were made to his three sons.

Longshore Strike In Portland Brief
 PORTLAND, Ore., Dec. 27.—(AP)—A three-hour longshoremen's strike at three ships ended today when Perry D. Tull, Portland waterfront arbitrator, ordered clings-loads of apples and pears reduced from 46 to 41 boxes.

Longshoremen's representatives demanded the loads be decreased to 34 boxes. Tull affected a compromise by the 41-box scale and in reducing the binder tier on each five-box load.

Four coast-wise steamers continued idle today as a result of seamen's demands for a six-hour day and overtime after 3 p. m.

Monmouth's Beer Protest Studied
 PORTLAND, Ore., Dec. 27.—(AP)—The Oregon state liquor control commission denied applications for 11 agencies today. Seven ap-

licants reside in Portland and the others in Tigard, Monument, North Powder and Lafayette. The only liquor agency granted went to R. G. Currier of Lakeside.

The license of the Virginia market agency in Portland was cancelled, due assertedly to the firm's method of handling and displaying liquor stocks.

Other actions: Taking under advisement of a ministerial protest against a beer package license for George A. Russell of Monmouth; further consideration of the request by Peter Schmitz, Jr., of Sweet Home for the restoration of his beer retailers' license; denial of an application by Wanda McGraw of Portland for a beer license; granting of a wine license to Rex Crites of Newberg; denial of an application by W. C. Jones of Portland for permission to provide entertainment.

Airplanes Bomb Hilo Lava River
 HILO, Hawaii, Dec. 27.—(AP)—Five army airplanes bombed Manna Loa volcano today in man's first attempt to turn back a lava eruption with his own devices.

Twenty 600-pound bombs dropped and exploded on the river of molten rock that for five weeks had been creeping menacingly toward the city of Hilo and its water supply.

Thomas A. Jagger, government volcanologist, said the fighting airmen had "remarkable success" in hitting the targets designated by him.

Captain Joseph J. Ladd, who dropped the first bomb, said it apparently hit its mark but he noted no change in the lava flow. It was said, however, the results would not be apparent for 24 hours.
