

Water System Replacement Bond Issue Goes Over by Big Vote

Count 18 for To 1 Negative

Monmouth to Pay for New System at Rate of \$1000 Per Year

MONMOUTH, Jan. 6.—The special city election held here January 4 to vote on a \$13,000 bond issue for replacement of the water system, was favorably voted with a count of approximately 18 to 1.

City councilmen and Mayor Bowersox have stated that in a few years the old system would have to be replaced at a cost approximating \$22,000, and government aid extended now will make such a replacement possible for \$13,000. It is believed the new system will last the city 30 years, and it will be paid for from water revenue at \$1,000 per year with 4 per cent interest. Such an arrangement will not increase city taxation.

The mayor and councilmen, George Cooper, L. B. Howard, A. E. Tetherow and G. M. Partridge, also S. C. Halladay and C. T. Calbreath, ex-councilmen, all expressed approval of the bond issue.

Operator Injures Foot

Mrs. Hester Sheehan, chief operator of Monmouth's telephone exchange, stepped on a nail in the barn at her home Saturday, running it nearly through her right foot. She is off duty for a few days, and is reported to be improving.

High water along the Luckiamute is reported to be curtailing travel on some roads leading to and from Friday the school bus from Lewisville to Monmouth had to omit a small part of its accustomed schedule. Water is rising in city basements here, but is not so high, as yet, as it was in January, 1933, when a number of residents were shut out from vegetable and fruit supplies in their basements for days—not to mention furnace heat.
