

Stock Market Pushes Steadily Ahead as Price Leadership Varies

New Highs For Years Reached

Oils, Specialties Lead Van; Rails, Foods, Utilities Advance

NEW YORK, Jan. 8.—(AP)—Price leadership rotated rapidly today from group to group in a swiftly moving stock market which pushed consistently forward.

General increases ranged from fractions to around 2 points, with a number of individual issues scoring new highs for several years.

Oils and specialties were in the van when trading ended in a burst of last minute activity, but rails, utilities and foods each had their turn in the advance guard with out being able to hold all their gain.

The Associated Press average of 60 stocks made a new high last exceeded on Sept. 4, 1931, with an advance of 4 of a point to 57. The 14-stock division of rails and utilities each were barely to edge into new high ground, the former at 31.9 and the latter at 46.6.

Turnover in the stock exchange aggregated 3,536,240 shares, a one time in the first hours of dealing the tape lagged around five minutes behind the market.

Wall street quarters reported that the market appeared fairly definitely to have shaken off the disturbing influence of the AAA decision and to be moving under general stimulus of business news and technical position.

Butter Tone Is Easy, Eggs Weak

PORTLAND, Jan. 8.—(AP)—Butter had an easy undertone today, and eggs were weak on the Portland market. An increase of one cent a pound was reported for chickens.

Weakness was generally suggested for hothouse tomatoes with increasing supplies from Willamette valley points and a slight gain in local offerings. Sales generally range 8 to 16 lb.

Strong tone continued in the market for country killed meats with hogs and lambs especially firm and beef in good call.

Marbled hams were firm and high priced, with sales to 2 1/2 c lb.

Arkansas yams of quality are being offered at \$2.

Potatoes and onions were unchanged with demand fair for the latter.

Goes to California

INDEPENDENCE, Jan. 8.—Miss Dora Hall left for California Monday morning, where she will spend the rest of the winter at Monterey. Miss Hall is a sister of Mrs. Claude G. Skinner.

Millers Buying Hand to Mouth

Wheat Heads Downward as 1936 Crop Appraisal Is Awaited

CHICAGO, Jan. 8.—(AP)—Indications domestic millers would buy only to fill immediate needs pending more definite appraisal of 1936 crops gave wheat decided downward impetus late today.

Heavy snowfalls southwest and west likely to enlarge domestic winter wheat production tended to encourage sellers, and so likewise did northwest reports of probable increased planting of spring wheat because of removal of government control of acreage. No big new purchasing of flour was reported.

Wheat closed weak, 1/4-1/2 under yesterday's finish, May 61 1/2-1/4, corn 1/4-1/2 down, and provisions showing 15 to 32 cents drop.

Early Grains Revised

Right-about-face action characterized wheat prices an early upward trend being squarely reversed. The temporary rise accompanied rumors England was negotiating to buy Canada's surplus. No confirmation, however, was obtainable.

Fallure of the Winnipeg market to reflect any unusual development as being at present in progress did a good deal to progress speculative buying ardor. A leading trade authority said flour sales continue on a relatively narrow scale as the question of tax refunds is still involving, buyers apparently holding off pending attempted adjustments.

Corn and oats sympathized with wheat weakness.

Provisions responded to downturns of hog values.
