

Preliminary Work Under Way on Gym for Mt. Angel College

Hill Crest Is Site Selected

Design Will Correspond to Other Buildings; Is One-Story

MT. ANGEL, Jan. 17. — Plans for the new gymnasium to be erected at Mt. Angel college are now complete and the architect's drawing of the proposed structure released. Barrett and Logan of Portland are the architects. Preliminary work has commenced.

The building as planned will be beautiful in line and a fitting architectural monument to stand at the gateway of the college buildings. It will be located on the western crest of the hill, just beyond the forking of the roads, on the site of the old monastery garden. It will face west and be a one-story structure but the windows on the western facade will be grouped to give the effect of vertical columns, thereby adding an appearance of height.

The general line of architecture will correspond to the other college buildings. It will be constructed of reinforced concrete with buff brick and trimmed with terra cotta. It will be 155 feet long and 89 feet wide.

Full Size Court
The main part of the building, 105 by 89 feet, will be occupied by the basketball court, which will be of the maximum size, 90 by 50, with five feet of free floor space to the sides and seven feet to the ends. On either side of the court there will be bleachers while the space under the bleachers will be used for showers, dressing rooms, equipment rooms and 12 private rooms. Special provision has been made for the growing college museum under the east bleachers.

The handball alley, of the box type, 60 by 25 feet, will be to the south of the basketball court, while the north end will form a stage wing. The stage itself will be 30 by 25 feet. Dressing rooms will be provided on either side of the stage and above them an art studio and the editorial room for the Pacific Star, the college paper. The basement beneath the stage will be converted into a spacious club room. The heating plant will also be housed in this part of the building.

Plan Club Room
In the plan by the stage extension and the north wall of the main building, there will be an addition which breaks the long lines of the building and in which will be found the coach's office and quarters. A club room will occupy a similar spot in the southwest corner. These rooms will have individual outside entrances.

The gym will be ready for use by next September and will fill a long felt want. This will be the third building of the college to be rebuilt since the fire of '26.

Architect's Drawing of New Mt. Angel Gymnasium

This one-story structure on which preliminary work has been started will be the third building reconstructed for the college since the disastrous fire of 1926.

Grangers' News

WOODBURN, Jan. 17. — Members of Woodburn grange will hold a social meeting in their newly remodeled hall Saturday night with entertainment furnished by Haugen's orchestra. They have also planned a dance to be held at St. Luke's hall January 30, to celebrate the completion of the hall improvements and to raise funds to help defray the expenses of the rebuilding.

The work was done by members of the organization and consists of an enlarged floor space in the main auditorium, the addition of dining room, and kitchen and installation of electric lights.

Rassier to Have Charge of Music

MT. ANGEL, Jan. 17. — Rev. Victor Rassier, O. S. B., who returned to Mt. Angel Friday after an absence of a year during which he studied with the greatest living masters of Gregorian Chant in Europe, was appointed today by Rt. Rev. Abbot Thomas to take charge of the music of the monastery.

Father Victor's first three months abroad were spent at the Clervaux Abbey in Luxembourg, where he studied under Dom Bernard, O. S. B. From here he went to the Abbey at Solesmes, France, the seat of the Gregorian chant movement. For five months he was a pupil of the famous Dom Gajard, O. S. B. Solesmes is known the world over for its work in spreading Gregorian chant in church music. Father Victor has gathered a wealth of information on the subject of chant, and he is particularly enthusiastic over the Solesmes system.

The last three months of this stay in Europe were spent at the Quarr Abbey, on the Isle of Wight, England, under Dom Desroquettes, O. S. B.

Father Victor will also instruct the young students of the seminary in church music.

Committees For Buckeroo Named

Directors Decide "13" Is Lucky Number For '36 Roundup

MOLALLA, Jan. 17. — It's a good thing that 13 is a lucky number, members of the Molalla Buckeroo association agree. Officers of the association met Monday evening to perform the important task of outlining the work that will be required to put on the coming Buckeroo, which will be Molalla's 13th. After serious deliberation, they divided the work among a number of committees of carefully chosen personnels and discovered that they had exactly 13 committees. Then, it dawned on someone that this crucial meeting had been held January 13. The only discrepancy is that the Buckeroo will open Friday, July 3, not 13.

Members of the 13 committees are:

Stock and talent—F. M. Henriksen, Dr. E. Todd, B. J. Woodward, E. R. Wallace and G. J. Case. Advertising and publicity—W. E. Tyler, G. W. Harris and R. W. Wallace. Concessions—Dr. Todd, J. E. At New Bremer Kidnap Trial

Charged with being the "finger man" in the \$200,000 Bremer kidnaping, Harry Sawyer, right, who became czar of St. Paul's underworld when "Dapper Dan" Hogan was killed by a bomb, is shown as he was led into federal court at St. Paul where Sawyer and two others are on trial in connection with the Bremer case which has already sent several to the penitentiary.

Scollard Named Gervais Marshal

Joseph Bonn Back From San Jose Where Son Recuperating

GERVAIS, Jan. 17. — The city council held a meeting Wednesday night at the office of the mayor, Roy Scollard, who has been acting city marshal and night watchman during the past three months, was appointed to that office permanently.

The council has experienced considerable trouble with the city well and pump for some time and Wednesday night decided to sink a new well as this would entail less expense than making the old well deeper and will be more satisfactory. A new pump was purchased recently and it will be installed in the new well.

Joseph Bonn, sr., has just returned from San Jose, Calif., where he went to be with his son, Robert, who was seriously burned while working as an engineer. He had climbed up on a boiler to do some work and in some unknown manner turned a valve that let gas into the firebox, when he snapped on a flashlight to locate the trouble the gas exploded severely burning his ears, face, neck, chest and arms.

Experts say that the click of a flashlight in escaping gas will cause an explosion. Robert is on the way toward recovery.

Mill City Folks Subscribe \$10,000 As First Move to Starting Lumber Mill There on Co-operative Basis

MILL CITY, Jan. 17. — Determined that Mill City shall have a mill, residents of this area met Thursday night and subscribed more than \$10,000, in addition to considerable labor, toward creation of a cooperative mill here.

The plan is to construct a new mill, probably near the pond, purchasing what equipment necessary from the former Hammond holdings still held here. Considerable timber already lies on the ground and can be purchased at a reasonable figure, the leaders believe.

The cooperative idea was explained in detail at a mass meeting Tuesday night, when R. R. Hewitt, Salem attorney, addressed a mass meeting here at invitation of local folks. After this initial meeting, the town was solicited and another meeting held Thursday night, with result above indicated.

Explorations Throw New Light on Mayan People

Recent publication of a report by the Carnegie institution at Washington of its expedition's work in restoring sections of the ancient Mayan city of Chichen Itza calls attention to the extensive research now being carried on into Mayan history. One of the most interesting structures restored by the Carnegie expedition is the caracol at Chichen Itza, believed to have served as an observatory and temple for the priests who officiated at the rites of the sun worshippers. Numerous Mayan cities have been uncovered in recent years in the depths of Central American jungles and in mountainous fastnesses which have guarded the secrets of the ancient race for centuries. The University Museum of Philadelphia has added to archeology's knowledge of these early Americans through its work at Piedras Negras in Guatemala. Efforts to unravel ancient Mayan secrets have been handicapped by lack of knowledge of the Mayan language but it may be that a new Rosetta stone will be found.

HALF-ALIVE from one to five?

It's EASY to see when another man is slipping. But it's harder to face it yourself. So it was with Jim. For months, he vaguely realized something was wrong with him. Tasks that he used to take in his stride had become a grind. He dreaded the afternoon hours most. Minutes dragged. Worst of all, it showed in his work.

Sluggish days are often due to common constipation. This ailment has helped to sidetrack many a promising career. It is a great enemy of vigor. Your pace slows down.

Most frequently, common constipation results from meals that lack sufficient "bulk" to exercise the intestines. So many people make the mistake of dosing themselves with pills and drugs that often do more harm than good. The real answer is to get "bulk" back in your daily diet.

Scientific tests show that Kellogg's ALL-BRAN supplies soft "bulk." Also that this "bulk" is often more effective than the "bulk" in fruits and vegetables. This natural laxative food has been used with success by millions of people. Two tablespoonfuls daily are usually sufficient. Stubborn cases may require ALL-BRAN oftener. If not relieved this way, see your doctor.

Enjoy ALL-BRAN as a cereal, with milk or cream. Have your wife cook ALL-BRAN into muffins, breads, waffles, etc. Remember, it furnishes wholesome "bulk." And also vitamin B and iron.

ALL-BRAN is sold by all grocers. Made by Kellogg in Battle Creek.

The natural food that corrects constipation
